### Product overview

The Nastrino Commendatore Corona Italia fino al 1946 is a historical ribbon for collectors, museums, and military memorabilia enthusiasts. It represents the third class (Commendatore) of the Order of the Crown of Italy and is aimed at those who collect military surplus, tactical

memorabilia, or duty and police honors.

Definition: a 37 mm ribbon emblem used historically to denote the Commendatore class of the Order of the Crown of Italy, produced to match the original size and appearance. It is suitable for display on ribbon bars, in cases, or as part of a historical collection.

**Main features**

Carefully made to reflect the historical appearance, this ribbon offers a faithful look with options for display and mounting.

- **Historic design:** decorated with a small royal coronet, symbolizing prestige and rank.
- **Two finishes:** available in regular flat format or a slightly domed "Elite" variant.
- **Standard size:** produced only in the 37 mm format to respect historical dimensions.
- **Optional portanastrino:** select a ribbon bar (portanastrino) from the product options for neat multi-ribbon display.
- **Durable materials:** manufactured with quality materials for longevity and consistent appearance.
- **Collectible item:** limited availability makes it appropriate for specialty collections and museum displays.

**How to use / When it’s useful**

Quick answer: use the ribbon on a display bar, in a framed case, or as part of a historical uniform exhibit. It is not a wearable modern decoration for active service use, but rather a collector’s or display item.

In most cases, collectors buy the regular format for exact reproduction and choose the Elite (slightly domed) when they prefer a more three-dimensional look. If you plan to mount multiple ribbons together, add a portanastrino when ordering for easy assembly and tidy presentation.

**Care and notes**

Handle and store the ribbon as a delicate collectible to preserve its appearance and historical value.

- Keep dry and store away from direct sunlight to avoid fading.
- Handle with clean hands or gloves to prevent oils from affecting the fabric or coronet detail.
- Only available in the 37 mm size; check this before ordering to match existing displays.
- Limited quantities are produced; availability can vary.
