How to use / When it’s useful

Quick answer: Use it as a ribbon bar on a uniform, in a display case, or as part of a military surplus collection. It is suitable for historical displays, reenactment kits and duty/tactical presentation sets.

In most cases, collectors mount the ribbon on a portanastrino or a multi-slot metal base for presentation; museum or private displays use the flat or Elite finish depending on the desired appearance. Choose the portanastrino option if you plan to group multiple ribbons on a single metal base.
