Product features:

Product short description:

The Guardian Angel 3 is a compact personal-defense spray pistol designed to deter attackers and offer a non-lethal option for self-protection. Suitable for civilians, travelers and private security personnel seeking a quick, easy-to-use device for close-range defense.

- **Product:** Guardian Angel 3 personal-defense spray pistol.
- **Use:** Intended for short-range deterrence and emergency self-protection.
- **Operation:** Simple, quick-deploy design to aid rapid response; follow safe handling practices.
- **Carry:** Compact for discreet storage in a bag or pocket; a holster can provide secure carry.
- **Legal:** Verify local laws and regulations before purchase and use.

Product description:

Product overview

The Guardian Angel 3 is a compact personal-defense pepper spray pistol designed for civilians, security personnel, and police who need a lightweight, easy-to-carry deterrent. It delivers

Oleoresin Capsicum (OC) irritant to temporarily disable an attacker while you escape or get help.

Definition: The Guardian Angel 3 is a non-lethal, piston-loaded pepper spray pistol that combines a safety, a loading indicator and a 3-meter effective range for close-quarters defense. This model is suitable for tactical, police and everyday personal protection needs.

Main features

Key technical and practical features that make the Guardian Angel 3 suitable for everyday carry and tactical use:

- **Piston loading** mechanism for simple operation and reliable discharge.
- **Lightweight, plastic body** — only 100 g for easy carry and handling.
- **Loading indicator** shows when the gas container needs replacement.
- **Integrated safety** to prevent accidental activation while carried.
- **Effective range:** approx. 3 meters with an exit speed of 180 km/h.
- **OC (Oleoresin Capsicum) irritant**, a natural active ingredient that causes temporary burning and irritation to eyes, nose, throat and skin.
- **Non-rechargeable design** — use until the gas container is depleted, then replace the canister.

How to use / When it’s useful

Quick answer: Use the Guardian Angel 3 only in real, immediate danger to stop or slow an attacker long enough to escape or get help. Aim for the attacker's face, preferably the eyes.

In most cases: keep the safety engaged while carrying, check the loading indicator regularly and avoid using the spray in confined or crowded spaces where bystanders could be affected. After deploying the spray, move away from the area immediately and seek safety.

Care and notes

Simple care and safety reminders to keep the device ready and reduce risks:

- Keep the safety on when not in use and store the pistol where children cannot access it.
- Replace the gas container when the loading indicator signals low or empty; the unit is not rechargeable.
- Do not use at distances under 50 cm — close-range use can cause serious harm.
- Avoid use in enclosed spaces to prevent exposure of bystanders to the irritant gas.
- Check local laws and regulations before carrying or using the device.

FAQ

Q: How long does the OC gas effect last?

A: The OC effect can last up to about 45 minutes for many people, giving time to escape and seek help. Individual reactions vary.

Q: Is the Guardian Angel 3 rechargeable?

A: No. This model is designed to be used until the gas container is empty and then the container must be replaced.

Q: Is it legal to carry this pepper spray pistol?

A: Legality varies by country and local jurisdiction. Always verify local laws before purchasing or carrying personal defense devices.

Q: Can I use it in indoor spaces like public transport or shops?

A: It is not recommended. Using OC spray in enclosed or crowded areas can affect bystanders and increase risk.

Q: What is the effective range and speed of the spray?

A: The Guardian Angel 3 has an effective range of about 3 meters and an exit speed of approximately 180 km/h for rapid delivery of the irritant.

Q: Is it safe to carry daily for personal protection?

A: The device is lightweight (100 g) and includes a safety to reduce accidental discharge, but carry responsibly and follow local rules and the care notes above.

Tip: Choose the variant or size that best fits your carry style and check related tactical, military surplus and police protection items to build a practical personal-defense kit. Browse accessories and replacement canisters to keep your Guardian Angel 3 ready for use.
