Product short description:

The Zaino Tattico Vegetato 50 Litri is a 50-liter tactical backpack for outdoor enthusiasts and field users. Built to withstand harsh conditions, it provides organized storage and reliable protection for extended hikes, camping and operational use.

- **Capacity:** 50 liters with multiple compartments and strategic pockets for gear organization.
- **Material:** Durable, waterproof construction to protect contents and ensure long service life.
- **Comfort:** Ergonomic shape with padded, adjustable shoulder straps for long carrying periods.
- **Use:** Suitable for trekking, camping and military or field activities.

Product description:

Product overview

The Vegetato 50-Liter Tactical Backpack is a 50 L military-style pack designed for soldiers, police, duty users and outdoor enthusiasts such as hunters, fishers and hikers. It combines durable materials and organized storage for extended field use.

Definition: a 50-liter tactical backpack made from 100% Cordura, built for heavy use and adaptable to tactical, military surplus and outdoor applications.

Main features

Designed for durability, comfort and modular customization, this pack fits a variety of missions and outdoor activities.

- **Size and volume:** 51 x 29 x 28 cm — 50 liters capacity.
- **Weight and fabric:** 1.6 kg, made from 100% Cordura for abrasion resistance.
- **Compartments:** five main compartments including two large with internal mesh pockets, one front organizer, one hydration pocket and one small front pocket.
- **Straps and closure:** 5 cm wide straps, Fastex semi-automatic waist buckle and ergonomic adjustable shoulder straps.
- **Ventilation & padding:** damping inserts on the back for ventilation and moisture removal.
- **Attachment points:** MOLLE webbing, D-rings on straps and bottom straps for a poncho or sleeping mat.
- **Hardware & protection:** double-slider plastic zippers; water- and weather-resistant materials (not guaranteed fully waterproof).

How to use / When it’s useful

This backpack works well for tactical patrols, extended day missions, camping, hiking and hunting trips where organized storage and modular attachments are needed. Use the MOLLE straps to add pouches and the bottom straps to secure bulky items like a roll mat or poncho.

Quick answer: use it when you need a durable 50 L pack with multiple compartments and modular attachment options. In most cases, tighten chest and waist straps to transfer load from shoulders to hips and improve comfort on long moves.

Care and notes

Basic care keeps the pack functional and extends its life. Handle hardware gently and dry the pack after heavy exposure to rain.

- Wipe clean with a damp cloth; avoid machine washing to protect fabric and webbing.
- Air-dry completely after heavy rain or immersion; store in a dry place.
- Inspect straps, buckles and zippers before each use; replace or repair damaged parts as needed.
- Avoid open flames and prolonged exposure to strong chemicals which can damage Cordura and hardware.

FAQ

Q: What material is the backpack made of?

A: The pack is made from 100% Cordura fabric, chosen for its tear and abrasion resistance common in tactical and military gear.

Q: Is the backpack waterproof?

A: The backpack is water- and weather-resistant to protect contents in light to moderate rain. It is not guaranteed fully waterproof in prolonged submersion.

Q: How many compartments does it have?

A: There are five main compartments: two large ones with internal mesh pockets, a front organizer pocket, a hydration pocket and a small front pocket.

Q: Are the shoulder straps adjustable?

A: Yes, shoulder straps are ergonomic and adjustable. A waist belt with a Fastex semi-automatic buckle helps distribute weight for longer carries.

Q: Can I attach extra pouches or a hydration system?

A: Yes. The pack includes MOLLE webbing for pouches and D-rings for routing a hydration tube. A dedicated hydration pocket is also provided.

Q: What are the pack dimensions and weight?

A: Dimensions are 51 x 29 x 28 cm and the empty weight is 1.6 kg. Volume is 50 liters, suitable for multi-day or heavier day missions depending on load planning.

Tip: Choose the right variant or size for your needs and check attachment options before purchase; browse related tactical and military surplus packs and accessories to build a complete loadout.
