Product short description:

A military-style outdoor belt in olive green nylon with a Skorpion buckle, designed for modern adventurers and outdoor professionals. It combines durable construction with comfortable wear for hiking, camping or everyday field use.

- **Material:** High-quality nylon that resists wear while remaining comfortable during prolonged use.
- **Buckle:** Skorpion buckle with solid construction to provide a secure, reliable closure in demanding conditions.
- **Use:** Suited for hiking, camping, travel and daily outdoor activities.
- **Compatibility:** Practical design that pairs well with backpacks, rucksacks and typical outdoor clothing.
- **Durability:** Built for regular outdoor use, offering long-lasting performance without sacrificing comfort.

Product description:

Product overview

The Military Outdoor Nylon Belt in green with a Skorpion polymer buckle is a durable, lightweight belt made for outdoor enthusiasts, hikers, tactical users and duty or police personnel who need a reliable everyday belt. It combines a military-style look with practical, adjustable performance.

Definition: a 37 mm-wide green nylon belt with adjustable length and a quick-release Skorpion polymer buckle for secure fastening and fast opening.

Main features

Built for comfort, low weight and reliable fastening in outdoor and tactical settings.

- **High-quality material:** green nylon for light weight and good abrasion resistance.
- **Skorpion polymer buckle:** secure, quick-release design with two red release points.
- **Width:** 37 mm for standard belt loops and modular use.
- **Adjustable length:** fits a broad range of waist sizes (length is user-adjustable).
- **Military/tactical style:** low-profile, nature-friendly green color for outdoor concealment.
- **Comfort:** lightweight construction that does not add unnecessary bulk to your gear.

How to use / When it’s useful

Thread the belt through your pants or kit loops, set the length by sliding the strap through the buckle, and press the two red points simultaneously to release. Quick answer: the Skorpion buckle is a fast-release system designed for quick opening and a secure close.

This belt is useful for hiking, fieldwork, tactical drills, duty and everyday wear where a sturdy, adjustable belt is needed. In most cases, the belt will stay secure during normal movement; it is intended for carry and waist support rather than load-bearing or safety-critical uses.

Care and notes

Simple care keeps the belt performing well in the field.

- Clean with mild soap and water; rinse and air-dry away from direct heat.
- Inspect the buckle and webbing periodically for wear before use.
- Do not use as a climbing or load-bearing safety device.
- Avoid prolonged exposure to solvents or extreme heat that can damage polymer parts.

FAQ

Q: Is the belt adjustable?

A: Yes. The length is adjustable by sliding the strap through the Skorpion buckle for a custom fit.

Q: What are the belt dimensions?

A: The belt is 37 mm wide. Length is adjustable to fit a range of waist sizes; check the product options for specific length variants.

Q: Is the Skorpion buckle durable?

A: The buckle is made of polymer and designed for everyday outdoor and tactical use. Inspect regularly for damage if used heavily.

Q: Is the green color suitable for camouflage?

A: Yes. The green nylon blends well with natural environments and is suitable for outdoor, tactical and military-style use.

Q: Is the belt lightweight?

A: Yes. Nylon construction keeps the belt light while providing good durability and comfort during long activities.

Q: Can I attach pouches or gear to this belt?

A: The belt is suitable for carrying light duty pouches and everyday accessories. It is not rated as a structural support for heavy load-bearing equipment.

Tip: Choose the correct length variant for your waist and intended use, and browse related tactical and duty belts or duty accessories to complete your setup.
