- **Protection:** Secure retention to protect your gear during everyday use.
- **Design:** Ergonomic shape and retention for comfortable carry and quick access.
- **Color & Use:** Distinctive blue finish suitable for professional duty, range use, and fieldwork.

Product description:

Product overview

The MB 220 Blu Cordura military holster is a blue belt holster designed for professionals and enthusiasts who need secure, practical carry for their pistols. It fits large auto and large auto compact pistols and is built with metal belt loops and a reclosable flap for secure retention.

Definition: The MB 220 Blu is a Cordura duty/tactical holster with metal belt loops and a double

quick?release polyurethane cord, made for service and civilian use where reliability and durability matter.

Main features

Compact, durable construction with options for fast access and belt adaptability.

- **Material:** Heavy?duty Cordura for abrasion resistance and long life.
- **Retention:** Reclosable flap plus double quick?release polyurethane cord for secure carry or rapid access.
- **Belt attachment:** Metal belt loops for stability; loop height 4 cm.
- **Adjustable fit:** Openable metal pass?through allows use with belts up to 5 cm wide.
- **Compatibility:** Made for large auto and large auto compact pistols.
- **Color and style:** Blue finish for a professional, tactical look (suitable for duty, police, and military surplus use).

How to use / When it’s useful

Wear the holster on your belt at the hip for duty, patrol, training, or civilian carry. The metal pass?through and sturdy loops keep the holster stable on duty belts and tactical belts.

Quick answer: Use the reclosable flap and cord for secure transport; leave the cord open for faster draws when appropriate. In most cases, this holster works well for users who need a reliable duty/tactical holster that accepts large auto and compact large auto pistols.

Care and notes

Simple maintenance will extend life and keep performance consistent.

- Clean with mild soap and water; air dry—do not machine wash.
- Inspect metal loops and fastenings regularly for wear or damage.
- Thigh extender (art. 2K13) is not included and must be purchased separately if needed.
- Store dry and avoid prolonged direct sunlight to preserve Cordura color and fabric strength.

FAQ

Q: Which pistols are compatible with the MB 220 Blu?

A: The holster is designed for large auto and large auto compact pistols. Check your pistol dimensions against the holster before purchase for the best fit.

Q: Can I use this holster with a 5 cm wide belt?

A: Yes. The belt loop height is 4 cm, but the openable metal pass?through allows use with belts

up to 5 cm wide.

Q: Is the thigh extender included?

A: No. The cosciale extender (art. 2K13) is not included and is sold separately if you need thigh mounting.

Q: Is this holster suitable for professional or duty use?

A: Yes. It is built for professional and enthusiast use, offering secure retention and durable materials for daily duty or tactical applications.

Q: Will the blue color fade quickly?

A: Cordura is colorfast under normal use, but like all textiles it can fade over time with prolonged sun exposure or harsh cleaning. Follow care instructions to preserve color.

Q: How do I balance security and quick access?

A: Use the reclosable flap and the double quick?release cord for secure carry. If rapid access is required, the cord can be left open while still retaining the flap when needed.

Tip: Choose the correct holster variant for your pistol model and belt width, and browse related duty and tactical holsters to complete your setup.
