How to use / When it’s useful

Quick answer: attach the patch to any garment with a compatible velcro field (vests, jackets, fleeces, shirts) for fast identification during duty. The velcro backing allows rapid removal and repositioning.

In most cases, use the plastic version where easy cleaning is needed and choose the embroidered version for a refined, textured appearance. This patch is useful for daily duty, tactical deployments, plainclothes-to-uniform transitions and training where clear police identification is required.

Care and notes

Basic care keeps the patch looking professional and extends its service life. Follow these practical tips and respect the purchase requirements.

- Embroidered: gentle cleaning recommended; avoid direct high heat on the embroidery.
- Velcro: keep both sides free of debris for secure attachment.
