Product short description:

Tubolari Generale di Corpo d’Armata – Esercito Italiano: heat-sealed plastic rank tubes for the Generale di Corpo d’Armata of the Italian Army, intended for uniform use and authorised personnel. Sale restricted according to procedure.

- **Material:** Heat-sealed plastic with continuous silver perimeter frame.
- **Design:** Central silver Greek key motif and three vertically aligned silver five?point stars.
- **Variants:** Khaki backing for shirt/sweater; black backing for service jacket.
- **Size:** 7 cm (L) × 5 cm (H).
- **Finish:** Controlled gloss for clear rank visibility, daily-use resistance and uniform conformity.

Product description:

Product overview

These are shoulder tubolari for the rank of Generale di Corpo d'Armata (three stars) in the Italian Army, designed for officers who need clear, uniform rank identification on shirts, sweaters and service jackets. Definition: a tubolare is a removable shoulder-band insignia that displays rank for uniform use.

Sold in pairs and produced for correct visual recognition. Sale is reserved to identified military personnel; collectors must present a licenza prefettizia ex art. 28 TULPS. Purchases require account creation and verification with Tutto Militare.

Main features

Compact, durable insignia engineered for uniform conformity, readability and easy care.

- **Material:** thermo-welded (heat-sealed) plastic for consistent color and finish.
- **Design:** silver perimeter frame and central silver greca (meander) motif.
- **Rank marks:** three silver five-point stars arranged vertically and overlapping the greca.
- **Dimensions:** 7 cm (L) × 5 cm (H) — optimized for visibility and standard shoulder straps.
- **Color variants:** kaki background for shirt/sweater; black background for service jacket.
- **Finish:** controlled silver sheen to avoid excessive reflection and preserve legibility.
- **Quality checks:** centering, symmetry and sealed edges inspected for uniformity.

How to use / When it’s useful

Quick answer: slide the tubolare onto the shoulder strap, align the three stars vertically on the greca and ensure the frame is parallel to the garment edge. In most cases, the kaki variant is used on shirts and sweaters, and the black variant on service jackets.

These tubolari are useful whenever clear rank identification is required—daily duty, field activity, formal representation or when interoperability with allied forces calls for immediate visual recognition. They are thin in profile so they do not interfere with belts, slings or personal protective equipment and can be removed for garment washing or replacement.

Care and notes

Basic care preserves appearance and durability; follow these simple steps and warnings to avoid damage.

- Clean with a soft, slightly damp cloth; avoid abrasive pads.
- Do not use aggressive detergents or solvents; air dry only.
- Store flat in a dry place away from heat and direct light to prevent deformation.
- Avoid prolonged pressure that could bend the profile; check edges before use to prevent fabric abrasion.

FAQ

Q: How are the tubolari supplied?

A: They are supplied in pairs unless a different configuration is specified on the product page. Each pair matches in color and finish.

Q: Who can purchase these tubolari?

A: Sale is reserved to identified military personnel. Collectors can buy only after presenting a licenza prefettizia ex art. 28 TULPS and completing verification.

Q: What is the difference between the kaki and black variants?

A: The background color: kaki is intended for shirts and sweaters, black is intended for the service jacket. Iconography and dimensions remain identical.

Q: Are these compatible with standard shoulder straps?

A: Yes. They are designed for standard shoulder straps used on the indicated Italian Army garments and allow quick insertion and removal.

Q: What are the exact dimensions?

A: The tubolari measure 7 cm (length) × 5 cm (height), chosen for visibility and to fit standard uniform shoulder straps.

Q: How should I clean and store them?

A: Wipe with a soft damp cloth, avoid solvents, and let air dry. Store flat in a dry, shaded place and avoid heavy pressure that could deform the profile.

Tip: Choose the kaki variant for shirt/sweater use and the black variant for service jackets; consider buying both for full uniform coverage. Check your verified account status with Tutto Militare before ordering and browse related insignia and compatible items to complete your set.
