Product short description:

The Vega Holster Porta Manette Chiuso in Cuoio Nero 1P25N is a closed leather handcuff pouch designed for security professionals and law enforcement. Made from quality leather, it delivers discreet, durable carry and quick access to handcuffs when needed.

- **Material:** High-quality black leather built for wear resistance and long service life.
- **Design:** Low-profile, closed pouch that complements uniforms and mounts securely to belts.
- **Closure:** Strong fastener keeps handcuffs in place while allowing reliable retrieval.
- **Use:** Intended for professional security and police use where secure, professional carry is required.

Product description:

Product overview

The Porta Manette Chiuso in Cuoio Nero 1P25 by Vega Holster is a closed leather handcuff holder designed for security officers, private guards and police duty use. Definition: a compact, belt-mounted leather holster that safely stores standard handcuffs for fast access.

Made from thermoformed genuine leather with a chrome press-stud closure and a rear belt loop, this duty accessory blends professional appearance with practical durability for tactical and security work.

Main features

Key features designed for dependable on-duty performance:

- **Material:** thermoformed genuine leather for shape retention and wear resistance
- **Closure:** chrome press-stud for secure retention and quick access
- **Belt attachment:** rear pass-through loop fits standard duty belts
- **Size:** 10.5 cm width × 13 cm height, compatible with most standard handcuffs
- **Finish:** black leather with a professional, low-profile look

How to use / When it’s useful

Attach the holster to your duty belt using the rear pass-through loop; position it where you can reach it quickly while maintaining comfort during patrols. The press-stud closure keeps the handcuffs secure yet allows rapid retrieval when needed.

Quick answer: use this holder whenever you need a reliable, belt-mounted storage for standard handcuffs during patrols, access control, or interventions. In most cases, the 1P25 fits standard police and security handcuffs—check the dimensions against your model to confirm fit.

Care and notes

Basic care prolongs life and maintains appearance. Follow these practical tips:

- Wipe clean with a damp cloth and dry immediately; avoid soaking the leather.
- Apply leather conditioner occasionally to prevent drying and cracking.
- Check the press-stud and belt loop regularly for tightness and wear.
- Confirm compatibility with your handcuff model before purchase.

FAQ

Q: What material is the 1P25 made from?

A: The 1P25 is made from thermoformed genuine leather, chosen for shape stability and resistance to everyday wear on duty.

Q: What are the exact dimensions?

A: The holster measures 10.5 cm in width and 13 cm in height, designed to fit most standard handcuffs used by police and security personnel.

Q: How does it attach to a belt?

A: It features a rear pass-through belt loop that slides over standard duty belts, providing a secure, stable attachment during patrols.

Q: Is the chrome press-stud secure in active use?

A: Yes. The chrome press-stud is designed to prevent accidental openings while allowing quick access in urgent situations; check it periodically for wear.

Q: Can it be used for tactical or military surplus kits?

A: The 1P25 is suitable for tactical, duty, and police use where a professional leather handcuff holder is required. Verify belt width and handcuff size for full compatibility.

Q: How should I clean and maintain the holster?

A: Clean with a damp cloth, dry promptly, and use leather conditioner occasionally. Avoid prolonged water exposure or direct heat to preserve the leather.

Tip: Choose the correct belt and handcuff size before ordering and browse related duty gear to complete your kit—selecting compatible accessories ensures comfort and efficiency on duty.
