How to use / When it’s useful

Quick answer: apply the insignia to the lower part of the sleeve, approximately 9 cm from the sleeve edge, so it is visible during formal duties and ceremonies. In most cases, placement follows uniform regulations and should be checked against the unit dress code.

These insignia are useful for formal parades, official ceremonies, and other events requiring gala uniform appearance. They clearly denote rank and authority while matching the traditional aesthetic of Carabinieri dress uniforms and are relevant for tactical, police, and military surplus contexts when authorized.

Care and notes

Simple care and legal notes to keep the insignia in good condition and compliant with rules:

- Only authorized personnel or licensed collectors may purchase; documentation is required (military ID or service certificate for personnel, prefectoral license per TULPS art. 28 for collectors).
- For cleaning, use professional uniform or dry-cleaning services to protect the bullion embroidery; avoid home washing that could damage the thread or backing.
- Store flat in a protective cover to prevent crushing of the bullion embroidery and to preserve shape and shine.
- Apply exactly at the specified 9 cm position to meet uniform standards and avoid altering the garment.
