Product short description:

The Tasca Vegetata Multiuso Porta Documenti is a compact, camouflage utility pouch for outdoor enthusiasts and organized travelers. It stores documents, maps and small accessories securely and fits easily on a belt or inside a backpack.

- **Material:** Made from durable materials with camouflage fabric for discreet outdoor use.
- **Use:** Keeps documents, maps, ID cards and small tools protected and accessible.
- **Closure:** Secure fastening system ensures contents stay in place during movement.
- **Carry:** Compact size for belt, backpack or rucksack - suitable for hikes, travel and daily use.

Product description:

Product overview

The **Tasca Militare Vegetata Multiuso Porta Documenti** is a compact, military-style document

pouch designed for military personnel, police, security professionals and outdoor users who need organized, durable storage for documents and small accessories. It suits tactical, duty and military surplus needs where quick access and protection are required.

Definition: A lightweight, multi-pocket document pouch in vegetato fabric for carrying ID, notes and small tools. The pouch combines a full-side zipper, internal organization and M.O.L.L.E. compatibility for flexible use.

Main features

Key features focused on organization, durability and modular mounting:

- **Vegetato fabric:** robust camouflage-style material designed for abrasion resistance in field use.
- **Compact size:** 18.4 cm height, 12 cm width, 2 cm depth; weight 0.14 kg.
- **Full-side zipper:** allows complete opening for fast access to contents.
- **Internal organization:** dedicated pockets for pens, notepads and documents plus a clear vinyl pocket for ID or CMD (Carta Multifunzione Difesa).
- **External mesh pocket:** quick-access compartment with a removable velcro tricolour patch (7.5 cm x 5 cm).
- **M.O.L.L.E. and vertical loop:** modular straps for mounting on vests, backpacks or belts and an eyelet for vertical attachment.
- **Weather protection:** material offers protection against rain and humidity for short exposures.

How to use / When it’s useful

Use the M.O.L.L.E. straps to attach the pouch securely to tactical vests, packs or duty belts. For stationary setups, use the vertical loop to hang the pouch on walls or command boards so documents are easy to reach.

Quick answer: Use it for ID, small documents, pens and field notes when you need an organized, mountable pouch. In most cases, it fits routine duty, patrols, hikes and base operations where compact secure storage is needed.

Care and notes

Basic care and practical notes to keep the pouch functional and durable:

- Wipe clean with a damp cloth; avoid machine washing to preserve fabric and velcro.
- Do not expose to heavy rain for long periods — protection is suitable for short exposures (not exceeding about one hour continuous in heavy rain).
- Remove or replace the tricolour velcro patch as needed for identification or to attach other labels.

- Check M.O.L.L.E. straps and stitching regularly if used in intensive field conditions.

FAQ

Q: Who can purchase this pouch?

A: The pouch is available to civilians and professionals alike, including military, police, security staff, hikers and campers.

Q: What are the exact dimensions and weight?

A: External dimensions are 18.4 cm height x 12 cm width x 2 cm depth. Weight is 0.14 kg.

Q: How is the pouch attached to other gear?

A: It uses standard M.O.L.L.E. modular straps on the back for secure mounting to vests, backpacks or belts, plus an additional vertical loop for hanging.

Q: Is the pouch waterproof?

A: The vegetato fabric resists rain and humidity and offers good protection for short exposures; it is not guaranteed for prolonged submersion or extended heavy rain.

Q: What items fit inside the pouch?

A: Designed for documents, pens, small notebooks, ID or CMD in the clear vinyl pocket and small accessories such as keys, memory cards or compact tools.

Q: Can civilians use it for outdoor activities?

A: Yes. The pouch is suitable for hikers, campers and security professionals who need a compact, organized solution for documents and small gear.

Tip: Choose the pouch variant that best fits your mounting system and check related tactical pouches or organizer options to build a complete setup for duty or outdoor use.
