- **Use:** Keeps badge or card visible for inspections, entry control and fast ID checks.
- **Model:** Art. 1WF00.

Product description:

Product overview

The Vega Holster 1WF Universal Neck Badge and ID Holder with Chain is a neck-worn badge

holder designed for police, law enforcement and security personnel who need fast, visible identification. It is made in Italy from quality materials and fits most Italian service metal badges used on duty.

Definition: A compact leather badge holder with a rear ID pocket and metal chain for neck carry, offering quick access to both badge and identification. Suitable for tactical, duty and security use in daily operations.

Main features

Durable, professional design that keeps badge and ID visible while remaining practical for patrols and checkpoints.

- **Italian leather** construction for a professional look and long-lasting use.
- **Universal fit:** accepts most metal badges used by Carabinieri, Polizia di Stato, Polizia Locale, Guardia di Finanza and Polizia Penitenziaria.
- **Not compatible with Croce Rossa badges:** Red Cross operators should use model 1WF52.
- **Front slot for clipped badges** and a flat surface for fixing badges without clips using adhesive.
- **Rear ID pocket** with a strong transparent film and snap button to protect and show the ID card.
- **Riveted metal loops and included metal chain** for neck wear; can also be carried in a pocket.
- **Size and color:** height 12 cm, width 9.5 cm, classic black suitable for uniform use.

How to use / When it’s useful

Quick answer: insert the badge into the front slot if it has a rear clip, or fix a badge without a clip to the front surface with a strong adhesive; place your ID into the rear pocket and close the snap; attach the chain to the riveted loops and wear it around the neck.

In most cases, this holder is useful for routine patrols, checkpoints, event security and any situation that requires clear, immediate identification. It is also convenient for tactical and military surplus users who need a compact duty badge carrier.

Care and notes

Keep the leather and transparent ID film in good condition with simple care and follow compatibility guidance.

- Wipe leather with a damp cloth; avoid soaking or harsh chemicals.
- Clean the transparent film with mild soap and soft cloth to prevent scratches.
- Do not use this model for Croce Rossa badges; order model 1WF52 instead.

- Badges without clips must be fixed with a suitable adhesive; check adhesion before use.

FAQ

Q: Is the 1WF holder compatible with all police badges?

A: It fits most metal badges used by Carabinieri, Polizia di Stato, Polizia Locale, Guardia di Finanza and Polizia Penitenziaria. The Croce Rossa uses a different badge and requires model 1WF52.

Q: Can I wear the holder without the metal chain?

A: Yes. You can remove the chain and keep the holder in a pocket or attach it to other gear if preferred.

Q: How durable is the transparent ID film?

A: The film is designed to resist scratches and everyday wear, keeping the ID visible during regular use. Replace it if heavily scratched to maintain clarity.

Q: How do I attach a badge that has no clip?

A: Badges without clips can be fixed to the front surface using a strong adhesive. Ensure the bond is secure before active duty to avoid loss.

Q: Is the holder suitable for tactical or military surplus use?

A: Yes. Its compact, durable leather design and neck carry option make it suitable for tactical, duty and military surplus applications where quick ID is required.

Q: Can the product be customized or ordered in other colors?

A: The 1WF model is sold in the standard black configuration with included metal chain. For other options, check available models or contact the retailer.

Tip: Choose the correct model for your organization (order 1WF52 for Croce Rossa) and check badge attachment type before purchase; browse related badge holders and chains to complete your duty equipment selection.
