Product short description:

The Vegetato 135-Liter Military Trolley Bag is a rugged travel bag for outdoor, tactical and military use. Made from durable, waterproof materials, it delivers large capacity and dependable mobility for demanding trips.

- **Capacity:** 135 liters of main storage to carry clothing, gear and equipment.
- **Material:** Tough, waterproof fabric and durable construction for long-lasting use.
- **Mobility:** Robust wheels and a telescopic handle for easy transport even when fully loaded.
- **Organization:** Multiple external pockets and internal compartments for efficient packing.
- **Use:** Vegetato camouflage pattern suited to outdoor activities and tactical operations.

Product description:

Product overview

The Borsone Trolley Vegetato 135 Litri is a heavy-duty military-style wheeled bag built for

personnel who need durable, organized transport for field missions, long deployments, training or rugged travel. It is designed for soldiers, police, and outdoor professionals who require large capacity, reinforced structure and modular storage.

Definition: a 135-liter tactical trolley bag made from Nylon 1000 Denier with reinforced base, modular MOLLE attachment points and three robust wheels.

Main features

Built to combine capacity, protection and modularity for demanding use.

- **High-strength material:** Nylon 1000 Denier for traction resistance, water repellence and easy cleaning.
- **Large capacity:** 135 liters with main compartment plus removable internal padded dividers for organized packing.
- **Modular storage:** Three rows of MOLLE webbing and three external pockets, including one detachable pocket (41 x 22 x 9 cm).
- **Reinforced structure:** Internal bars and five-sided padding protect contents and keep the base stable under load.
- **Versatile transport:** Three sturdy wheels for terrain mobility, reinforced side and top handles, and convertible shoulder carry.
- **Secure closures:** Double-slider reinforced zippers and waterproof material on the bottom for extra protection.
- **Compact dimensions:** With pockets 80 x 60 x 35 cm; without pockets 80 x 44 x 35 cm; weight approx. 5 kg.

How to use / When it’s useful

Quick answer: Use it for multi-day missions, long-term deployments, intensive training sessions, or any situation that needs heavy-duty tactical luggage. The removable dividers make it simple to separate electronics and documents from clothing and gear.

In most cases, the MOLLE system lets you add pockets and pouches to tailor the bag to duty, police, tactical or travel needs. The wheeled design plus reinforced handles gives options for rolling, hand-carrying or shoulder transport depending on terrain and load.

Care and notes

Basic care keeps the bag reliable in the field: wipe with a damp cloth, dry before storage, and avoid constant overloading that stresses seams and handles.

- Clean with a damp cloth; do not machine wash.
- Air dry thoroughly before storing to prevent mold.
- Distribute heavy items across dividers and use reinforced handles for lifting.

- Check zippers and wheel fittings regularly for wear.

FAQ

Q: Is this bag only for military use?

A: No. It is designed for military needs but works equally well for travel, outdoor expeditions, logistics and law enforcement duty.

Q: Is the material waterproof?

A: The Nylon 1000 Denier is water-repellent and the bottom is made with waterproof material to protect contents from wet surfaces. It is not fully submersible.

Q: Can I remove the external pockets?

A: Yes. One of the larger side pockets is removable and includes a carry handle for use as a small personal bag.

Q: How do I clean the trolley bag?

A: Wipe the surface with a damp cloth and mild soap if needed. Avoid machine washing and store dry to preserve materials and padding.

Q: Does it support heavy loads without deforming?

A: The bag has internal reinforcement bars and a rigid base to reduce deformation and improve stability under heavy packing.

Q: Can I attach additional gear to the bag?

A: Yes. The three rows of MOLLE webbing accept compatible pouches, small backpacks and accessories for expanded capacity.

Tip: Choose the right variant and size for your mission: consider how you pack (organized with dividers or bulky gear), and browse related tactical bags and modular pouches to complete your setup without overpacking.
