How to use / When it’s useful

Quick answer: Wear the ribbon on service dress and ceremonial uniforms where decorations are displayed. It is designed to match official uniform layouts and to be used alongside other service ribbons on a metal ribbon bar.

In most cases, choose the 37 mm format for formal and ceremonial use and the 20 mm format for a more discreet or compact presentation. Select clip attachment for easy removal or screw attachment for a more permanent fit; multi-place porta nastrini are useful when displaying several ribbons together.

Care and notes

Simple care keeps the nastrino looking professional and preserves the finish of the fabric and emblem.

- Store in a protective case or cover to avoid dust and direct sunlight that may dull the color.
- Avoid machine washing or chemical exposure; clean gently with a soft cloth if needed.
- Choose the attachment type (clip or screw) based on how often you remove the ribbon.
- Availability can be limited; order early to secure the desired variant and size.
