Product short description:

Blousing elastic straps to form the traditional puff above the knee for parades and official events. Ideal for military and ceremonial use by personnel of Esercito, Marina, Aeronautica and Carabinieri seeking a neat, professional uniform.

- **Use:** Creates the bloused look on military trousers for parades and formal occasions.
- **Closure:** Hook closure for quick, secure attachment.
- **Fit:** Adjustable elastics for a comfortable, tailored hold.
- **Colours:** Blue, olive green and black to match service uniforms.

Product description:

Product overview

Blousing elastics for military trousers are adjustable straps that create the classic bulge above the knee and keep the trouser leg secured inside boots; they are designed for personnel who need a

neat, uniform appearance for parades, ceremonies and formal duty. Definition: blousing elastics are simple adjustable bands with a hook closure used to shape and secure military trousers.

These elastics fit Drop Armata trousers and most parade or tactical uniforms used by Esercito, Marina, Aeronautica and Carabinieri. They are useful for military, tactical and duty or police use where a consistent, professional look is required.

Main features

Durable, adjustable and easy to apply — built for repeated use in parade and duty settings.

- **Adjustable elastic** that maintains tension without deforming.
- **Hook closure** for a secure, anti-slip fit.
- **Durable metal fittings** resistant to breakage.
- **Anti-wear finish** to resist abrasion and weather exposure.
- **Available colors:** Blu, Verde Oliva, Nero to match major uniforms.
- **Compatible** with Drop Armata trousers, parade pants and many tactical trousers.

How to use / When it’s useful

Quick answer: place the elastic below the knee, tighten to the desired blousing effect and lock the hook; then tuck the trouser leg into the boot. In most cases, this is done after putting on trousers and before donning boots to achieve the correct bulge above the knee.

These elastics are primarily used for parades and formal ceremonies to ensure uniform appearance, but they can also be used in operational or duty contexts where a tidy trouser-to-boot fit is required. They work with military surplus, tactical and duty clothing.

Care and notes

Simple care keeps the elastics functional and reliable over time. Check fittings before use and avoid over-stretching to preserve elasticity.

- Inspect the hook and elastic regularly for wear or damage.
- Do not overstretch; adjust tension to maintain comfort and allow movement.
- Clean with mild soap and water; avoid strong solvents or bleach.
- Store dry and away from prolonged sunlight to preserve elasticity.

FAQ

Q: Are these compatible with any military trousers?

A: Yes. The adjustable design and hook closure allow compatibility with most military and parade trousers, including Drop Armata models.

Q: How do I attach them to my trousers?

A: Place the elastic just below the knee, adjust to the desired tension, fasten the hook and then tuck the trouser leg into your boots for the blousing effect.

Q: Are they only for parades or can they be used in the field?

A: They are ideal for parades and ceremonies but can also be used in operational or duty situations where a neat appearance is required.

Q: What colors are available?

A: Available colors are Blu, Verde Oliva and Nero to match uniforms used by Marina, Esercito, Aeronautica and Carabinieri.

Q: Can these be used as garters?

A: Yes, their adjustable fit and secure hook make them suitable as temporary garters or to control trouser fit in similar applications.

Q: How durable are the materials?

A: Made from high-resistance elastic with metal closures and an anti-wear finish, they are built for repeated use; regular inspection will help maintain performance.

Tip: Choose the color and tension setting that match your uniform and intended use; check the fit with boots on and consider browsing related parade and tactical accessories to complete your kit.
