Product features:

Product short description:

The Fregio Basco Ingegneri is the official badge identifying members of the Corpo Ingegneri dell'Esercito Italiano. Worn on the official beret, it denotes the unit's role in engineering, logistical and technical support both in Italy and on international deployments.

- **Material:** Official badge construction; see product details for metal or embroidered options.
- **Use:** Mounted on the official beret to identify Corpo Ingegneri personnel; also suitable for uniform repair or collectors.
- **Fit:** Designed for standard Italian Army beret placement.
- **Significance:** Symbol of professional service and unit identity within the Corpo Ingegneri.
