The Condor MA27 triple rapid magazine pouch is a modular solution for secure, quick carry of rifle magazines. Designed for military, police and tactical users who need fast access and reliable retention in the field.

- **Material:** 1000 Denier polyester with drainage grommets for durability and water run-off.
- **Capacity:** Holds up to 3 M4/M16 magazines; compatible with ARX-160.
- **Attachment:** M.O.L.L.E. mounting with elastic retention straps for stable carry and rapid extraction.
- **Size & Weight:** 24x16x2 cm, 220 g; color: vegetato camouflage.

Product description:

Product overview

The MA27 Condor Triple Fast Magazine Pouch is an open, modular pouch designed for

operators, military personnel, law enforcement, and tactical enthusiasts who need quick access to magazines. It holds up to three rifle magazines and mounts on standard M.O.L.L.E. webbing for easy integration with tactical vests and belts.

Definition: a compact, open-top magazine pouch made from 1000 Denier polyester for durability and field use. Available through Tutto Militare, it combines a low-profile design with durable materials for tactical, military surplus, duty, and police applications.

Main features

Key features at a glance:

- **Material:** 1000 Denier polyester for abrasion resistance and durability.
- **Capacity:** Holds up to three M4/M16 magazines; also compatible with ARX-160 magazines.
- **Retention:** Integrated elastic retention bands for secure magazine hold and fast extraction.
- **Mounting:** Rear M.O.L.L.E. attachment system for modular placement on vests and packs.
- **Drainage:** Drainage eyelets allow water to escape and help dry wet gear.
- **Size & weight:** 24 cm x 16 cm x 2 cm; weight 220 g — compact and lightweight.
- **Color:** Vegetato pattern for a professional, low-visibility look in field environments.

How to use / When it’s useful

Attach the pouch to any standard M.O.L.L.E. panel on chest rigs, plate carriers, belts or packs. Load magazines from the top; the elastic retention allows quick pull-out while keeping magazines secure during movement.

Quick answer: use this pouch for patrols, range sessions, training, and duty when you need rapid magazine access. In most cases, it works well for operators and police who prefer an open-top, fast-access solution that integrates with existing tactical gear.

Care and notes

Basic care extends service life and maintains performance.

- Hand wash with mild soap and cold water; air dry away from direct heat or sunlight.
- Inspect elastic retention bands regularly and replace if worn to maintain reliable retention.
- Ensure M.O.L.L.E. attachment is secure before use to prevent accidental loss.
- Avoid prolonged exposure to chemicals or solvents that may weaken fabric or stitching.

FAQ

Q: Which magazines fit this pouch?

A: It is designed for M4/M16 magazines and also fits ARX-160 magazines. Fit can vary slightly by magazine brand and baseplate.

Q: What are the exact dimensions and weight?

A: Dimensions are 24 cm x 16 cm x 2 cm and the pouch weighs 220 g. It is compact and intended for low-profile carry.

Q: What material is the pouch made from?

A: The pouch is made from 1000 Denier polyester, chosen for its abrasion resistance and durability in operational environments.

Q: How does the retention system work?

A: Elastic retention bands hold magazines in place while allowing quick extraction. Check elastics regularly for wear and replace as needed.

Q: Is it compatible with MOLLE systems?

A: Yes. The rear M.O.L.L.E. attachment system allows secure mounting to standard M.O.L.L.E. webbing on vests, belts, and packs.

Q: What color options are available?

A: This listing describes the vegetato pattern, which provides a professional, subdued appearance for field and urban use.

Tip: Choose the pouch variant that matches your carrier and magazine type, and consider pairing it with other tactical or military surplus items for a complete loadout. Browse related magazine pouches and accessory attachments to find the best combination for your duty or range setup.
