Product short description:

The Vega Holster Fondina Militare Nera MB2 is a black military holster in Cordura and injection-molded polymer, designed for law enforcement, private security and airsoft users. It combines strong wear resistance with low weight and ambidextrous carry.

- **Material:** Cordura fabric with injection-molded polymer body for durability and reduced weight.
- **Design:** Ambidextrous configuration with a quick-release retention flap for fast, secure draws.
- **Mounting:** Removable steel belt loop and 4 cm slots; compatible with the black thigh rig kit.
- **Use:** Suited to police, security professionals and airsoft players seeking reliable retention and protection.

Product description:

Product overview

The Vega Holster MB2 black military holster in Cordura and injection-molded polymer is a duty-

ready holster for police, Carabinieri, private security, and airsoft or tactical enthusiasts. It combines a rigid polymer shell with Cordura fabric to balance weapon protection and wear resistance.

Definition: a tactical duty holster designed for secure retention, quick access and versatile mounting options. Check the compatibility list on this page and tell us your pistol model at checkout.

Main features

Built for daily use, the MB2 offers protected retention, fast release and flexible attachment options for duty belts and thigh rigs.

- **Cordura and injection-molded polymer** for impact, abrasion and weather resistance.
- **Quick-release flap** for fast, controlled draw while keeping the weapon covered.
- **Trigger-guard cover** to reduce the risk of accidental trigger activation.
- **Removable steel belt loop** for use with different belt widths and mounts.
- **4 cm belt slots** secure the holster to standard duty belts.
- **Integrated cleaning-rod slot** for storing a barrel-cleaning rod.
- **Ambidextrous design** suitable for right- and left-handed users.

How to use / When it’s useful

Quick answer: use the MB2 for duty, patrols, training, airsoft skirmishes and dynamic shooting practice where a balance of protection and quick draw is needed. Select right- or left-hand orientation from the product options before ordering.

In most cases, mount it on a 4 cm belt or attach it to a compatible thigh rig; the removable steel loop and compatibility with the black thigh kit expand mounting choices. Confirm your pistol model against the compatibility list on this page and enter it at checkout to ensure fit.

Care and notes

Basic care keeps the holster functional and reliable over time. Wipe down surfaces and avoid harsh chemicals that can damage Cordura or polymer.

- Wipe with a damp cloth and mild soap; air dry away from direct heat.
- Do not use strong solvents on the polymer or Cordura lining.
- Check compatibility—this holster fits specific pistol models only; confirm your model before purchase.
- The black thigh kit (cosciale) is not included; the holster is compatible with that kit but sold separately.

FAQ

Q: Is the MB2 holster compatible with all pistols?

A: No. The MB2 fits specific pistol models. Please review the compatibility list on the product page and indicate your pistol model during checkout to confirm fit.

Q: Can I use this holster with a standard duty belt?

A: Yes. The holster has 4 cm belt slots and a removable steel loop to secure it to most standard duty belts and support rigs.

Q: Is the thigh kit included with the holster?

A: No. The thigh (cosciale) kit is sold separately. The MB2 is designed to be compatible with the black thigh kit if you choose to add it.

Q: Is this a hard or soft holster?

A: It combines a rigid polymer shell for retention with Cordura fabric for durability and some flexibility, offering the benefits of both materials.

Q: Can left-handed shooters use this holster?

A: Yes. The MB2 is ambidextrous and can be configured for right- or left-hand draw; choose the hand orientation from the product options.

Q: Who is this holster intended for?

A: It is intended for police, Carabinieri, private security, airsoft players and anyone who needs a tactical, duty-style holster with quick access and reliable protection.

Tip: Choose the correct hand orientation and confirm your pistol model before ordering. Browse related duty and tactical gear to complete your setup and ensure full compatibility.
