Product short description:

The Vega Holster Passante Doppio Moschettone in Black Leather (Art. 1V05N VH) is a robust belt accessory for law enforcement, security professionals and military gear enthusiasts. It keeps keys, gloves or handcuff keys secured to a duty belt for fast, reliable access during daily use.

- **Material:** Heavy-duty black leather for long-lasting wear and a professional appearance.
- **Use:** Double carabiner-style loops to attach keys, gloves or handcuff keys securely.
- **Fit:** Designed to accommodate most duty and tactical belts for easy carry.
- **Design:** Solid construction and practical layout for dependable field performance.
- **Model:** Art. 1V05N VH — Vega Holster.

Product description:

Product overview

The Passante Doppio Moschettone in Cuoio Nero 1V05N Vega Holster is a leather double-

carabiner belt loop designed for police, military and security professionals. Definition: it is a black leather belt loop with two metal carabiners to secure holsters and essential tools to a duty or tactical belt.

Built from high-quality treated leather with reinforced metal alloy carabiners, it combines a professional look with practical durability for daily field use by Carabinieri, police, security guards and military personnel.

Main features

Compact, durable and designed for fast access on duty belts.

- **Material:** High-quality black leather treated for wear and moisture resistance.
- **Double carabiner:** Two metal alloy carabiners, each 4 cm long, for secure attachments.
- **Size:** 8.5 cm width x 6.5 cm height for a compact profile on the belt.
- **Ergonomic fit:** Low profile and balanced weight to reduce bulk and improve comfort.
- **Professional use:** Designed with police and military duty requirements in mind.

How to use / When it’s useful

Quick answer: attach the passante to a standard tactical or duty belt and clip in a holster, keys, gloves or small tools using the two carabiners. This lets you keep essential equipment accessible and stable during patrols or operations.

In most cases, use the double carabiner setup to distribute load and prevent rotation of the holster or tool. It is especially useful for officers and security personnel who need quick release and secure retention of items on long shifts.

Care and notes

Simple care extends the life of leather and hardware. Inspect the carabiners and stitching regularly for signs of wear.

- Wipe clean with a damp cloth; avoid soaking the leather despite its treatment.
- Condition leather occasionally with a suitable leather conditioner to maintain flexibility.
- Check carabiners for smooth operation and any deformation before each shift.
- Store in a dry place away from prolonged direct sunlight or harsh chemicals.

FAQ

Q: What materials are used for the passante?

A: The loop is made from high-quality black leather treated for wear and moisture resistance, with metal alloy carabiners for secure attachments.

Q: How long are the carabiners?

A: Each carabiner measures 4 cm in length and is finished for smooth opening and closing.

Q: Will it fit my belt?

A: Yes. The passante is designed to fit most standard tactical and duty belts used by police, military and security personnel.

Q: What equipment can I attach?

A: It is suitable for holsters, handcuff keys, gloves, small torches and communication devices—any compact tools you need on your belt.

Q: Is this product suitable for professional use?

A: Yes. The 1V05N is developed with the needs of Carabinieri and other law enforcement or security professionals in mind.

Q: How durable is the passante in bad weather?

A: The leather is treated to resist moisture and weathering, but regular care and inspection are recommended to maintain long-term performance.

Tip: Choose the right belt-compatible variant and check carabiner condition before use. Browse related tactical and duty accessories to complete your setup without compromising comfort or access.
