Product short description:

A compartmented single-shoulder sling bag in Vegetata camouflage, designed for practical organization and durable carry in field and urban settings. Ideal for military personnel, security professionals and outdoor enthusiasts.

- **Design:** Side MOLLE panels, multiple zippered compartments and a concealed pocket for secure storage.
- **Carry:** Adjustable shoulder strap with removable waist belt for stable, hands-free wear.
- **Comfort:** Padded back panel to support prolonged use.
- **Use:** Suitable for tactical, security and outdoor applications.

Product description:

Product overview

The Vegetato Split-Compartment Single-Shoulder Bag is a compact tactical sling bag designed

for military, police, security professionals and outdoor users who need fast access and organized carry. Definition: a single-shoulder tactical bag with multiple compartments and modular attachment points for mission-ready organization.

Built in a vegetato camouflage pattern inspired by the Italian Army, this bag balances durability, ergonomics and modularity. It keeps equipment secure and accessible for patrols, EDC, hiking or field operations.

Main features

Key features focused on durability, organization and comfort.

- Vegetato camouflage exterior for visual integration in wooded environments
- Tear-resistant, water-repellent technical fabric with reinforced stress points and military-quality zippers
- Padded breathable back panel and padded, adjustable shoulder strap with quick-release buckle
- Main compartment with internal mesh pocket and elastic magazine bands (fits up to 3 M5 mags or 6 pistol magazines)
- Integrated side MOLLE panel compatible with standard NATO MOLLE accessories
- Removable/adjustable waist belt and a concealed internal security pocket for sensitive items

How to use / When it’s useful

Quick answer: use it as a tactical sling for patrols, a compact duty bag for police or security work, or an organized EDC pack for urban and outdoor activities. The layout lets you separate magazines, tools and personal items for rapid access.

In most cases, carry it across the chest or on the back depending on movement and access needs; clip the waist belt for extra stability when running or moving over rough terrain. Its MOLLE side allows adding pouches for radios, first aid or extra storage.

Care and notes

Simple care preserves performance and extends service life.

- Clean with a damp cloth and mild soap; allow to air dry away from direct heat
- Water-repellent fabric resists light rain but is not guaranteed waterproof—avoid submersion
- Do not overload beyond its intended size; distribute heavy loads and use the waist belt for stability
- Check local laws before transporting firearm magazines or regulated items

FAQ

Q: Is the bag waterproof?

A: The bag is made from water-repellent technical fabric suitable for light rain. It is not designed for full submersion or prolonged heavy downpours.

Q: Is it compatible with MOLLE accessories?

A: Yes. The bag features an integrated lateral MOLLE panel compatible with standard NATO MOLLE pouches and accessories.

Q: Can I use it for urban everyday carry (EDC)?

A: Absolutely. Its compact size, internal organization and discreet camouflage make it a practical and robust choice for daily professional or civilian use.

Q: Is the back panel padded?

A: Yes. The rear panel is padded with a breathable mesh to improve ventilation and reduce sweat during extended wear.

Q: How many magazines does it hold?

A: The main compartment includes elastic magazine bands sized to hold up to 3 M5 magazines or up to 6 pistol magazines, depending on magazine profile.

Q: Is the waist belt removable?

A: Yes. The waist belt is adjustable and fully removable, allowing you to choose the preferred carry configuration for each mission or activity.

Tip: Choose the configuration that matches your typical load (with or without waist belt) and check related tactical pouches and EDC organizers to expand capacity and tailor the bag to your duty, police or outdoor needs.
