Product short description:

The Nastrino al Merito Centro Operazioni di Pace in Estonia is an official ribbon awarded to personnel of the Arma dei Carabinieri for participation in international stabilization missions in the Baltic region. Offered by Tutto Militare, it is designed to complete orderly medal displays.

- **Design:** Ribbon in the colors of the Estonian flag.
- **Recipients:** Conferred to Arma dei Carabinieri personnel for service in peace operations in Estonia and the Baltic area.
- **Versions:** Available in flat ministerial or domed Elite finish.
- **Compatibility:** Compatible with all regulatory ribbon supports; ideal for completing medal racks.

Product description:

Product overview

The Nastrino al Merito del Centro Operazioni di Pace in Estonia is a commemorative ribbon for personnel who supported peace operations in Estonia. It is aimed at military and police members, veterans, and collectors of military surplus and duty decorations.

Definition: A commemorative ribbon representing service at the Peace Operations Center in

Estonia, made in official-style grosgrain fabric and available in regulation and commemorative formats.

Main features

High-quality construction, faithful use of Estonian flag colors, and two mounting formats make this ribbon suitable for uniform use (regulation flat version) or display and collection (bombed variant).

- **Material:** High-definition grosgrain fabric with precise color rendering
- **Colors:** Blue dominant with vertical black and white stripes echoing the Estonian flag
- **Standard width:** 37 mm
- **Formats:** Flat regulation (37 mm x 10 mm) and Bombed Elite (3D effect, non-regulation)
- **Mounting:** Lateral tabs for fitting to single or multi-place metal ribbon holders
- **Quality control:** Each ribbon inspected before shipment

How to use / When it’s useful

Quick answer: choose the flat 37 mm x 10 mm version for wear on uniform; choose the Bombed Elite version for displays, presentations, or collector showcases. The flat model follows ministerial dimensions and fits standard metal supports.

In most cases, if your existing ribbon set is 37 mm wide the new ribbon will be compatible; check whether the other ribbons are flat or bombed to ensure a uniform appearance. You can mount it on an existing multi-place holder, buy a new metal holder, or use a single-place holder with screw clamps for individual wear.

Care and notes

Simple care preserves appearance: handle gently, avoid exposure to heat or strong sunlight, and use appropriate metal holders for secure attachment. Note that the bombed version is decorative and not a regulation uniform item.

- Avoid machine washing or high heat exposure to preserve fabric and colors
- Use the correct holder type (multi-place or single-place with screw clamps) for secure mounting
- The flat 37 mm x 10 mm version is regulation-sized; the bombed version is non-regulation and intended for display
- Keep away from abrasive surfaces to prevent fraying

FAQ

Q: Is the ribbon conformant with official dimensions?

A: Yes. The flat version measures 37 mm x 10 mm and matches common ministerial dimensions

for ribbon bars.

Q: Can I wear the Bombed Elite version on my uniform?

A: No. The bombed version is a non-regulation, decorative style intended for collections and displays, not standard uniform wear.

Q: Will this fit my current ribbon holder?

A: If your existing ribbons are 37 mm wide, the ribbon will be compatible. Verify whether others are flat or bombed for a consistent look.

Q: Is a ribbon holder included with the purchase?

A: No. Holders are sold separately. Choose a single-place or multi-place metal holder depending on how you plan to mount the ribbon.

Q: Can I order multiple pieces for a group or institution?

A: Yes. Bulk or institutional orders are possible; contact customer service for availability and a tailored offer.

Q: What are the shipping and delivery times?

A: Typical dispatch is within 24–48 hours with delivery in 2–5 business days depending on destination. Tracking information is provided by email.

Tip: Choose the flat 37 mm x 10 mm variant if you plan to wear the ribbon on duty dress; choose the Bombed Elite for display or collector mounts. Browse related mission ribbons and compatible metal holders to complete your set.
