Product short description:

Cromatina Reflex Super Lucida Nera 50 ml is a professional leather shoe cream for military personnel, uniformed operators and anyone who needs a reliable, high-gloss finish. It restores shine, nourishes leather and helps protect against moisture while keeping footwear soft for regular use.

- **Formula:** Contains fine waxes and silicones to condition and protect leather.
- **Finish:** Delivers an extra glossy, high-shine appearance ideal for dress and parade footwear.
- **Use:** Suited to daily care and quick touch-ups on smooth leather shoes and combat boots.
- **Size:** Compact 50 ml tin, convenient for storage or field carry.
- **Purchase:** Available from Tutto Militare, specialist supplier of quality equipment.

Product description:

Product overview

The Cromatina Reflex Super Gloss Black Shoe Cream, 50 ml, is a concentrated polish designed

for black leather footwear used by military, police, tactical and formal duty wear. It is intended for service members, law enforcement, and anyone who needs a durable, professional shine on black shoes and boots.

Definition: a high-gloss black leather cream that cleans, nourishes and protects leather while restoring deep black color and long-lasting shine.

Main features

Compact and travel-friendly, this cream combines natural waxes and hydrophobic silicones to give a bright, water-resistant finish while keeping leather supple.

- **Size:** 50 ml screw-top jar, pocket-friendly.
- **Color:** Deep black, formulated for black leather only.
- **Finish:** High-gloss, mirror-like shine.
- **Formula:** Natural and microcrystalline waxes plus hydrophobic silicones and emollients.
- **Use:** For polishing, protecting and restoring black dress shoes, parade boots and tactical/duty footwear.
- **Compatibility:** Best for natural leather; test before use on varnished or specialty leathers.

How to use / When it’s useful

Quick answer: apply a small amount with a soft cloth to clean, dry leather, let absorb for a few minutes, then buff with a cloth or soft brush to the desired shine. This restores color, seals the surface and helps repel moisture.

In most cases, use 2–3 times per week for frequent military or duty use, or about once every 7–10 days for occasional office/formal wear. Ideal for parade boots, uniform dress shoes, ceremony footwear and everyday duty boots.

Care and notes

Store and use the cream correctly to maintain both the product and your footwear.

- Keep in a cool, dry place away from heat sources.
- Only for black leather—use a neutral or color-matched product for other colors.
- Test first on a hidden area of varnished or patent leather before full application.
- Wipe off excess and buff with a soft cloth; a horsehair brush can enhance the final shine.

FAQ

Q: Is this cream suitable for non-black leather?

A: No. This formula is specifically for black leather. For other colors choose a neutral or a color-

matched product to avoid staining.

Q: Will it leave residues or stain clothing?

A: If applied correctly and allowed to dry, it should not stain fabrics. Wipe off any excess and allow full absorption before wearing.

Q: Can I use it on new shoes?

A: Yes. It improves the finish and adds protection from the first use, helping leather retain flexibility and color.

Q: Can it be used on patent or varnished leather?

A: It is formulated for natural leather. On patent or high-gloss varnished surfaces, test a small inconspicuous area first to check compatibility.

Q: How long does a 50 ml jar last?

A: With regular use on one pair of shoes, a 50 ml jar typically lasts about 2–3 months depending on application frequency and amount used.

Q: Can I carry this in hand luggage on a plane?

A: Yes. The 50 ml size meets common hand-luggage liquid limits, but always confirm current airline regulations before travel.

Tip: Choose the 50 ml size if you need a portable, travel-friendly option; pick a neutral or color-matched cream for non-black footwear. Browse related polish cloths, brushes and waterproofing sprays to build a complete care kit for military, police and tactical footwear.
