- **Attachment:** Rear Velcro for quick fitting to polos, T?shirts and camouflage garments.
- **Size:** 7×5 cm—compact for daily use and training.
- **Sale:** Reserved to identified military personnel; collectors require a prefectural license (ex art. 28 TULPS).

**Product description:**

## Product overview

This is the Division General Velcro rank patch (Generale di Divisione) for the Esercito, designed for active Italian Army personnel and licensed collectors. It is a low-profile, embroidered hook & loop (Velcro®) patch for operational uniforms, polos, T-shirts and tactical outerwear.

Definition: a 7×5 cm, olive?green embroidered patch with two five?point stars over a greca, made for quick attachment and removal on standard loop panels. Suitable for tactical, military surplus and duty use.

**Main features**

Clear, durable and regulation?inspired design for daily operational wear and training.

- **Size:** 7 cm (W) × 5 cm (H) with ±1–2 mm production tolerance.
- **Design:** two black five?point stars over a black greca on an olive?green background.
- **Finish:** matte high?tenacity polyester embroidery, black perimeter border to prevent fraying.
- **Backing:** factory?applied hook & loop (Velcro®) for fast attachment and stable hold.
- **Use:** for operational uniforms, camouflage garments, polos, T?shirts and tactical soft?shells.
- **Target:** serving Generals of Division and licensed collectors (sale is regulated).

**How to use / When it’s useful**

Quick answer: press the patch firmly onto a clean loop panel (chest pocket or ID panel) for immediate recognition of rank. In most cases, the patch is used on operational clothing where a low?profile, non?reflective appearance is required.

Apply to standard loop panels on uniforms, polos and tactical garments. The Velcro® backing allows rapid replacement with name or unit patches as mission needs change, and it preserves the garment better than permanent sewing.

**Care and notes**

Simple care preserves embroidery and Velcro® performance; follow these practical steps.

- Remove the patch before washing the garment to protect threads and hook backing.
- Clean the hook side periodically to remove lint and dust for best adhesion.
- Avoid direct high?heat ironing on the embroidery; if needed, place a cloth over the patch.
- Sale reserved for identified military personnel; collectors must hold the required license (ex art. 28 TULPS).

## FAQ

**Q:** Is the patch compatible with all camouflage uniforms?

**A:** Yes, it is designed for standard loop panels used on most camouflage uniforms. Verify your garment has a loop panel before purchase.

**Q:** Can I wash the garment with the patch attached?

**A:** It is not recommended. Remove the patch before washing to protect the embroidery and the Velcro® backing.

**Q:** Will the black border or embroidery fade?

**A:** The threads are selected for color stability; avoid excessive heat and harsh chemicals to maintain color over time.

**Q:** Is this patch intended for ceremonial/parade uniforms?

**A:** This design is intended for operational and daily use. For ceremonial requirements, follow your unit's dress regulations.

**Q:** What are the exact dimensions?

**A:** The patch measures 7×5 cm (width × height) with a production tolerance of ±1–2 mm due to trimming.

**Q:** Who can purchase this patch?

**A:** Sales are restricted to identified military personnel; collectors must provide a valid prefectoral license (ex art. 28 TULPS) as required by regulation.

**Tip:** Choose the correct variant (number of stars) for your rank and check your uniform for a compatible loop panel; browse related rank patches and unit insignia to complete a matched set for operational or collection use.
