Product short description:

The Papalina in Maglia Watch Cap Verde is a warm, durable knit watch cap designed for outdoor, operational and recreational use. Ideal for military personnel, hunters, anglers and hiking enthusiasts, it offers reliable cold-weather protection with a comfortable fit.

- **Material:** Soft acrylic knit for insulation and comfort.
- **Use:** Suitable for cold-weather outdoor activities, field operations, hunting and fishing.
- **Fit:** One size with a snug, stretch fit that conforms to the head.
- **Packability:** Lightweight and compact, easy to stow in a backpack.
- **Care:** Hand wash in cold water or dry clean.

Product description:

Product overview

The Watch Cap knit beanie in olive green is a compact, warm headwear designed for military, tactical, police and outdoor use. It suits service personnel, outdoor workers and civilians who need a simple, reliable cap for cold weather and under-helmet wear.

Definition: A Watch Cap is a close-fitting knitted cap made to retain heat and cover the ears while remaining lightweight and packable.

Main features

Practical construction and materials focused on warmth, comfort and easy care.

- **100% acrylic knit** for thermal insulation, softness and quick drying.
- **One-size elastic fit** adapts to most head circumferences without tight pressure.
- **Olive/operational green** colour for low visibility in natural environments.
- **Lightweight and compact**—folds small for easy storage in packs or pockets.
- **Foldable rim** allows extra ear coverage when needed.
- Suitable to wear under helmets or hoods for duty and field work.

How to use / When it’s useful

Use the Watch Cap for cold-weather patrols, surveillance, hiking, hunting, fishing, camping and general outdoor tasks where a low-profile warm cap is needed. It is commonly used in military surplus kits and by tactical teams for quick warmth without bulk.

Quick answer: It keeps the head and ears warm while remaining thin enough to fit under a helmet. In most cases, combine it with a neck gaiter or balaclava in very windy or extreme cold conditions for full face protection.

Care and notes

Simple care preserves shape, elasticity and colour; follow these recommendations.

- Hand wash in cold water with a mild detergent when possible.
- Machine wash at 30°C is acceptable, but hand washing is preferred.
- Do not wring; gently squeeze out water and reshape.
- Air dry away from direct heat sources; acrylic dries quickly.
- Not waterproof — use additional outer layers in heavy rain.

FAQ

Q: Is the size one-size-fits-all?

A: Yes. The elastic knit adapts to most head sizes and provides a secure, comfortable fit without tight pressure.

Q: Is this suitable for military or duty use?

A: Yes. The cap is designed for cold-weather field tasks, training and use under helmets, making

it suitable for many military, police and duty applications.

Q: Will it protect against strong wind?

A: The cap offers good protection against cold and light wind. For strong winds, pair it with a hood or balaclava for better face and neck protection.

Q: Can I use it for hunting or fishing?

A: Yes. The olive green colour helps reduce visibility in wooded and natural settings, making it appropriate for hunting and fishing.

Q: Is it machine washable?

A: Machine washing at 30°C is possible, but hand washing in cold water with mild detergent is recommended to preserve elasticity and colour.

Q: Does it take up much space in a backpack?

A: No. The lightweight acrylic knit folds down very small and is easy to pack without adding bulk.

Tip: Choose the Watch Cap in the colour and quantity that match your gear and duty needs; check related headwear and neck gaiters on Tutto Militare to complete your cold-weather kit.
