How to use / When it’s useful

Quick answer: mount the ribbon on a single ribbon holder with a rear clamp or screw attachment for formal wear or display. In most cases, the 37 mm size will fit standard ribbon bars used by military, police, and emergency uniforms.

The ribbon is useful when you need a clear visual recognition of participation in three humanitarian missions—on uniforms, dress displays, or in collections of military surplus and tactical memorabilia. For combined mounting on multi-place ribbon bars, make sure the base supports multiple ribbons in a single metal holder.

Care and notes

Keep the ribbon clean and mounted properly to preserve its appearance and symbolic value.

- Store away from direct sunlight and moisture to prevent fading.
- Check fit: ensure your ribbon holder accepts 37 mm ribbons before purchase.
- Secure attachment: use the correct rear clamp or screws to avoid loss during wear.
- Limited stock: order promptly if you need a specific format or the Elite variant.
