- Two finishes: standard flat regulation format and a slightly curved "Elite" variant for a three-dimensional look.
- Mounting options: choice of clamp (morsetto) or screw attachment for secure fitting.

How to use / When it’s useful

Quick answer: wear the ribbon on the uniform where regulations allow, or mount it on a porta nastrini for orderly display of multiple decorations. In most cases, choose the size and mounting type that match your service dress rules.

Use the flat format for a classic, regulation-compliant appearance or the Elite curved variant for a more pronounced presentation when displaying the ribbon on a chest bar. For personnel with multiple ribbons, a two- or multi-slot porta nastrini keeps decorations neat and professional.
