How to use / When it’s useful

Quick answer: wear the ribbon on the service ribbon bar or mount when authorised, or use it in displays and collections as a faithful reproduction of the official ribbon. Select the size and attachment type that match your existing ribbon bar or uniform requirements.

In most cases, the flat 37 mm or 20 mm formats fit standard Italian ribbon bars; choose clamps or screws depending on your portanastrini. The ribbon is useful for ceremonial dress, museum displays, and military surplus retail where accurate presentation matters.
