Product short description:

Authentic US military dog tags, ideal for collectors, military-history enthusiasts and anyone seeking a meaningful, personal accessory for everyday wear or display.

- **Material:** High-quality stainless steel, durable and made to last.
- **Includes:** Two matching dog tags supplied with a chain, packaged as a set and ready for gifting.
- **Personalization:** Ready to be engraved with your name, blood group or a short message.
- **Use:** Suitable as a gift for history fans, veterans, or as a distinctive touch for daily wear, display and tactical-inspired outfits.

Product description:

Product overview

Polished aluminum US military dog tags supplied as an original-style kit for collectors, reenactors, tactical users and military surplus buyers. Definition: military dog tags are paired metal ID plates worn around the neck to identify service members.

This kit includes two polished aluminum plates with rubber silencers and two rust-resistant chains; the set is supplied unengraved and ready for personalization or display.

Main features

Durable, authentic-looking ID plates designed for everyday wear or collection.

- Polished aluminum plates (two-piece set, "dog tags")
- Comes with rubber silencers and two rust-resistant chains
- Overall neck chain length: 61 cm; short chain for the second plate: 12 cm
- Plate dimensions: 4 x 4.5 cm
- Supplied unengraved — matches original kit style used by the US Army
- Uses: military dog tags, tactical ID tags, military surplus collectors and duty gear

How to use / When it’s useful

Wear the main chain around the neck with one plate on each side; the shorter chain typically holds the second plate. These tags are intended to remain in place under normal and adverse conditions and can be used for identification in the field.

Quick answer: wear them as ID around the neck for duty, training, reenactment, or display. In most cases, these are sold unengraved so you can choose personalized engraving or keep them as authentic surplus-style tags.

Care and notes

Basic care keeps the polished finish looking good and preserves the rubber silencers and chains.

- Clean with a soft cloth; avoid abrasive cleaners that could dull the polish.
- Rubber silencers may wear over time; store dry to extend life.
- Supplied unengraved — if you add personal data, consider privacy and security of that information.
- Contains small parts; keep away from young children.

FAQ

Q: Are these original US Army dog tags?

A: The set matches the original kit style issued to the US Army and is supplied unengraved for authenticity, but it is offered as a civilian product for collectors and users.

Q: Do the tags come engraved with personal data?

A: No — the tags are supplied unengraved. You can have them engraved separately if you want personal information added.

Q: What are the chain and plate sizes?

A: Overall chain length is 61 cm, the short chain for the second plate is 12 cm, and each plate measures 4 x 4.5 cm.

Q: Are the chains and plates rust-proof?

A: The chains and plates are described as rust-resistant. Normal care will help maintain their condition.

Q: Can these be used for tactical or police duty?

A: These tags are suitable as tactical ID tags or for military surplus and duty-style use, but verify your agency or unit requirements before using them on official duty.

Q: How should I clean and store the tags?

A: Wipe with a soft, dry or slightly damp cloth; avoid harsh chemicals and abrasives. Store in a dry place to protect the rubber silencers and metal finish.

Tip: Choose the variant and size that fit your needs (personal use, display, or tactical wear) and browse related military surplus and tactical ID items to complete your kit.
