- **Sizes**: Regulatory 37 mm and a discreet 20 mm option.

How to use / When it’s useful

Quick answer: wear the 37 mm ribbon where official regulations require formal display; use the 20 mm version for civilian clothing or a subtler presentation. The ribbon can be mounted alone or grouped on a multi-place ribbon bar for orderly display.

In most cases, choose screws for a permanent, secure mount and clamps if you need to remove or reposition the ribbon. Suitable for veterans, Red Cross personnel, collectors and for ceremonial or commemorative use in tactical, military surplus and duty displays.

Care and notes

Keep the ribbon in a dry, clean place and select the attachment and size that match how you plan to wear or store it.

- Store flat or on a ribbon bar to avoid creasing and protect the gold thread from abrasion.
- Warning: screw attachments provide a permanent fix; choose clamps if you need removability or minimal impact on fabric.
- Choose 37 mm for official uniform wear where applicable; use 20 mm for civilian clothing or discreet display.
- Availability is limited—check options before completing your order.
