Quick answer: choose the 37 mm width for full-size medal mounts and 20 mm for miniature or gala mounts. Use the clip for quick attachment and the screw fitting for a more permanent, secure mount.

In most cases, this ribbon is used on service dress uniforms, multi-ribbon displays, or in medal cases and collections. It is also useful for restorations or replacements when presenting NATO Afghanistan campaign service ribbons on duty, police or tactical uniforms.

Care and notes

Maintain the ribbon's appearance and follow uniform rules when wearing or displaying it. Small details matter for presentation and long-term preservation.

- Handle by the edges to avoid soiling the fabric or metal fittings.
- Choose clip attachment for temporary wear; choose screws for stable, long-term mounting.
- Check your unit or national uniform regulations before wearing the ribbon in public.
- Store with other medals and ribbons in a dry, cool place to prevent fading or corrosion.
