Product overview

The Gendarmeria Nacional Argentina ribbon is a 37 mm service ribbon in grey with the Argentine national colors, designed for uniforms, collectors, and tactical or police duty displays. It is suitable for mounting on ribbon bars and for use in military surplus or display collections.

Definition: A nastrino is a small service ribbon used on uniform ribbon bars to represent awards or unit affiliation. Available in two variants—flat regulation and a slightly convex "Elite" version—and sold either mounted or as a loose medal ribbon.

Main features

Clear, regulation-size ribbon with multiple mounting options and a choice of finish for display or uniform use.

- **Design:** Grey base with Argentine national colors for authentic appearance.
- **Size:** Standard 37 mm width, suitable for most ribbon bars and mounts.
- **Variants:** Flat regulation finish or slightly convex Elite finish.
- **Mounting options:** Rear clamp or screw attachment for ribbon bars and portanastrini.
- **Loose ribbon available:** Can be purchased as a single medal ribbon if preferred.
- **Durability:** Made for repeated wear and display in duty, police, and tactical collections.

How to use / When it’s useful

Quick answer: Use this nastrino on uniform ribbon bars, multi-place metal ribbon mounts, or as a replacement/collector item. Select the mounting style (clamp or screws) and the finish (flat or Elite) when ordering.

In most cases, the 37 mm format fits standard ribbon bar systems and multi-place portanastrini used by police and military surplus collectors. Choose the loose ribbon option if you only need the fabric strip, or order pre-mounted for ready-to-wear installation.

Care and notes

Basic care keeps the ribbon looking its best and ensures secure mounting; choose options carefully before purchase.

- Avoid abrasive cleaners; gently wipe with a soft, dry cloth for dust and light dirt.
- Select the correct mounting type (clamp or screws) at checkout to match your ribbon bar.
- Sold only in the 37 mm format—confirm size compatibility with your portanastrini.
- Limited availability: order promptly if you need the item for a uniform or collection.

FAQ

Q: What size is the ribbon?

A: The nastrino is the standard 37 mm width. It is intended to fit common ribbon bars and portanastrini used for uniform display.

Q: Can I buy the ribbon as a loose medal ribbon?

A: Yes. You can select the loose medal ribbon option when ordering if you only need the fabric strip and not a mounted bar.

Q: Which mounting options are available?

A: Two rear-attachment choices are available: clamp (morsetto) or screws. Pick the option that matches your existing ribbon bar or installation method.

Q: What is the difference between the flat and Elite versions?

A: The flat version follows a regulation appearance; the Elite version is slightly convex for a more pronounced profile. Both represent the same ribbon design and size.

Q: Is this an official issued item from Gendarmeria Nacional Argentina?

A: This product reproduces the ribbon colors of the Gendarmeria Nacional Argentina for uniform or collector use. Confirm official authorization or wear rules with the issuing authority if required.

Q: How do I fit the ribbon to a multi-place ribbon bar?

A: Choose the correct mounting option (clamp or screws) and indicate the number of places needed. Ensure the 37 mm width matches the bar slots before mounting.

Tip: Choose the variant and mounting style that match your ribbon bar and purpose—flat for regulation appearance, Elite for a raised profile. Check size and mounting options before ordering and consider browsing related tactical, military surplus, and police uniform accessories to complete your display.
