How to use / When it’s useful

Quick answer: select the flat or Elite finish, choose loose ribbon or a mount with clamp or screw fittings, then attach to your ribbon bar or display mount.

In most cases, you will pick the 37 mm ribbon to match standard mounts and either buy it loose for customization or fitted to a portanastrini for ready-to-wear use. This ribbon works well for uniform insignia, replacement pieces, and collector displays.

Care and notes

Basic care and selection notes to keep the ribbon in good condition and ensure proper fit:

- Keep the ribbon dry and avoid prolonged exposure to abrasion or heavy soiling.
- Choose the attachment type (clamp or screw) that matches your ribbon mount for secure fitting.
- Available only in 37 mm width—confirm compatibility with your ribbon bar or portanastrini.
- Supplies are limited; consider ordering promptly if you need a matching set for display or uniform use.
