How to use / When it’s useful

Quick answer: wear the nastrino on your uniform ribbon bar or attach it to a medal mount using the chosen fastening. It also works as a spare loose ribbon for a large medal presentation.

In most cases, select the flat regulation style for standard uniform wear or the bombed Elite style for a more pronounced look on a medal mount. Choose clamps for quick fitting or screws for a more secure attachment when displaying multiple ribbons together.

Care and notes

Keep the ribbon clean and store it flat or on an appropriate metal mount to preserve its shape and colours.

- Do not bend or crease the ribbon unnecessarily; it is supplied in 37 mm width only.
- Select the correct fastening (clamp or screw) for your intended display to avoid damage when mounting.
- Stock is limited—order promptly if you need a specific format or mount.
