- **Four front pockets:** Button closures with protective flaps for maps, lights and small gear.
- **Standard collar:** Comfortable, neat profile for layered wear.
- **Button cuffs:** Adjustable wrist fit to suit different tasks and layering.

How to use / When it’s useful

Quick answer: wear it for airsoft, hunting, fishing, hiking, camping or any task where a durable, breathable shirt is needed. The BDU cut and pocket layout make it practical for carrying essentials and layering under outerwear.

In most cases, this shirt works well as a field layer during daytime activities or as a casual duty-style piece. Use it when you need tactical-style functionality without adding synthetic insulation; pair with a jacket for cooler conditions.

Care and notes

Follow the garment's care label to keep the fabric and pattern in good condition.

- Machine washable: follow the care instructions on the label for best results.
- Avoid chlorine bleach and harsh chemicals to preserve color and fabric strength.
- Not treated for insect repellency; the thicker cotton offers some physical barrier but not active protection.
- Wash with similar colors and fasten buttons before laundering to protect pocket flaps and closures.
