How to use / When it’s useful

Quick answer: attach the ribbon to a standard ribbon bar using the chosen rear clamp or screw mount. In most cases, the 37 mm size suits dress uniforms while the 20 mm fits smaller or compact ribbon arrangements.

Use the ribbon to display ten-year merchant service on formal uniforms, at ceremonies, or as part of a collection of naval insignia. Select the Elite variant for a slightly raised look and choose the attachment type that matches your ribbon bar.
