How to use / When it’s useful

Quick answer: wear the ribbon on the uniform to indicate the Donato di Devozione honor during official ceremonies and formal events. Use the reduced 20 mm version for a low-profile look and the 37 mm regulation for standard uniform dress.

In most cases, choose the mounting type that matches your uniform needs—clips or clamps for quick fitting, screws for more permanent attachment. The ribbon can be fitted alone on a single-holder or grouped with other ribbons on a multi-place metal ribbon bar for a professional appearance.

Care and notes

Store and handle the ribbon like other uniform insignia: protect the enamel and metal finish, and secure the fastening to avoid loss. Note purchase restrictions below.

- Keep the enamel emblem clean and avoid abrasive cleaners.
- Secure with the chosen fastener before wear; check screws periodically if selected.
- Only authorized members of the Order or documented collectors should purchase this ribbon.
- Choose the 20 mm or 37 mm width based on uniform regulations and personal preference.
