Product short description:

The Nastrino Operatore CIMIC is a recognition ribbon for personnel in civil-military cooperation. It honors dedication to linking the armed forces with civilian communities.

- **Material:** Made from high-quality materials for a neat, durable finish.
- **Purpose:** Identifies operators involved in CIMIC and civil-military coordination roles.
- **Design:** Elegant, distinctive appearance suitable for formal wear and uniforms.
- **Wear:** Designed to be worn on uniforms, jackets, or other formal attire.
- **Significance:** A symbol of professionalism and support for peace and international cooperation.

Product description:

Product overview

The CIMIC Operator Ribbon is a recognition ribbon for personnel who have completed the CIMIC course or a NATO-equivalent course and have carried out CIMIC activities in an operational theatre for at least three continuous months. It is intended for military, tactical and duty personnel who need an accurate, service-style ribbon for uniform display or collection.

Definition: a CIMIC operator ribbon is a service ribbon that identifies staff trained and deployed in

Civil-Military Cooperation (CIMIC) roles. This ribbon suits military surplus collectors, tactical gear users and duty uniform needs.

Main features

Clear, regulation-sized ribbon with selectable finishing and mounting options to suit uniform or display needs.

- **Distinctive design:** red background with 2 mm vertical side stripes in green, white and blue; central gold metal plate engraved with "CIMIC" (plate size 5 mm x 12 mm).
- **Regulation size:** available in the standard 37 mm format.
- **Finish options:** choice of flat standard or slightly domed "Elite" finish for a polished look.
- **Mounting choices:** rear attachment available with clamps or screws, selectable at purchase.
- **Multi-ribbon compatibility:** can be fitted to two- or multi-slot ribbon bars on a single metal base.
- **Loose ribbon option:** available as loose ribbon with a minimum purchase length of 50 cm for tailoring or custom projects.

How to use / When it’s useful

Quick answer: wear on service dress or mount on a ribbon bar for display when you meet the eligibility criteria (course completion and required in-theatre service). In most cases, this ribbon is used alongside other service ribbons on uniform ribbon assemblies.

Use the flat format for standard issue appearance or choose the Elite slightly domed finish for a refined presentation. Select the preferred rear attachment (clamps or screws) to suit your ribbon bar or collector’s frame, and order loose ribbon if you need custom-length pieces.

Care and notes

Keep the ribbon in good condition with simple care and check unit rules before wearing. Availability may be limited due to demand.

- Store in a dry place and avoid prolonged exposure to direct sunlight to prevent fading.
- Clean gently with a soft, dry cloth; avoid solvents or abrasive cleaners that could damage the metal plate.
- Choose the correct attachment type (clamps or screws) for your ribbon bar to ensure secure mounting.
- Wear and display in accordance with your unit or national regulations.

FAQ

Q: Who is eligible to wear the CIMIC Operator Ribbon?

A: The ribbon is intended for personnel who have completed the CIMIC course or a NATO-equivalent course and who have performed CIMIC duties in theatre for at least three continuous months. Formal awarding should follow unit regulations.

Q: What are the ribbon dimensions?

A: The ribbon is supplied in the regulation 37 mm format. The central metal plate measures 5 mm x 12 mm and bears the inscription "CIMIC".

Q: What finishing and mounting options are available?

A: You can choose a flat standard finish or a slightly domed "Elite" finish. Rear attachments are available with either clamps or screws, selectable when ordering.

Q: Can I buy the ribbon as loose material?

A: Yes. The ribbon is available as loose material with a minimum purchase length of 50 cm. This option is useful for tailoring or custom displays.

Q: Can this ribbon be mounted on a multi-ribbon holder?

A: Yes. The ribbon can be fitted to two- or multi-slot ribbon bars on a single metal base. Select the correct attachment when ordering for a secure fit.

Q: Is the ribbon always in stock?

A: Stock can be limited due to demand. Availability varies, so check the product options and select your format and mounting type when placing the order.

Tip: Choose the finish and attachment that match your ribbon bar or uniform needs, and consider the loose-ribbon option if you need custom lengths. Browse related ribbons and ribbon bars to complete your uniform or collection.
