How to use / When it’s useful

Quick answer: wear this ribbon on the uniform ribbon bar or on a metal ribbon holder after you have completed the EOD 2° Livello course and where your service regulations allow it. Choose the rear attachment (clamps or screws) that matches your uniform or ribbon bar type.

In most cases, the flat or Elite finish is a matter of personal preference or unit style; the Elite variant has a slightly domed profile for a different look. If you plan to mount several ribbons together, order the appropriate multi-place ribbon base and confirm spacing and attachment type.
