Product short description:

Nastrino Ingegnere Ind. Elettronico COM is a distinctive ribbon badge for professionals in electronic engineering. Suited to engineers, graduates and technical staff, it adds a formal, elegant touch to uniforms, suits or academic dress.

- **Material:** Made from quality materials with careful finishing for a neat appearance.
- **Use:** Ideal for ceremonies, academic events, graduations and formal occasions.
- **Design:** Refined styling and attention to detail for a professional look.
- **Display:** Clearly shows your title and dedication to the electronic engineering field.
- **Gift:** A thoughtful option for colleagues or new graduates.

Product description:

Product overview

The Nastrino Ingegnere Ind. Elettronico COM is a decorative military ribbon intended for industrial engineers specializing in electronics. It is designed for use on uniforms, ceremonial displays, and by collectors of military surplus and tactical gear.

Definition: the Nastrino Ingegnere Ind. Elettronico COM is a small embroidered ribbon that identifies professional competence in electronic engineering within Italian military decorations. It

combines a black base with a central light-blue stripe and follows standard ribbon dimensions.

Main features

Compact, regulation-style ribbon made for clear visual identification and long-lasting wear.

- **Standard size:** 10 mm height × 37 mm width.
- **Color design:** black base with a 2 mm horizontal light-blue stripe at center.
- **Material:** high-quality embroidered fabric for durability and color retention.
- **Finish options:** flat regular format or slightly domed "Elite" finish for a three-dimensional look.
- **Attachment choices:** rear clamps or single-screw fitting for secure mounting.
- **Brand:** available through Tutto Militare with packaging and customization options.

How to use / When it’s useful

Use the ribbon on dress uniforms, ceremony attire, or display mounts to show professional affiliation with electronic engineering. Quick answer: attach with the chosen rear fitting (clamps or single screw) to a uniform or to a multi-ribbon metal mount for neat presentation.

In most cases, the flat format suits daily wear and easy combination with other ribbons, while the slightly domed Elite version improves visibility for formal or display use. Choose the attachment style that matches your uniform or display method.

Care and notes

Designed for long life, the ribbon retains color and shape when handled correctly.

- Avoid abrasive cleaning; spot-clean gently with a soft cloth if needed.
- Store on a flat surface or on a dedicated multi-ribbon metal mount to keep alignment.
- Check and tighten the chosen rear fitting periodically to prevent loosening.
- Handle embroidered surfaces with care to preserve thread definition and color.

FAQ

Q: What are the exact dimensions of the ribbon?

A: The Nastrino Ingegnere Ind. Elettronico COM measures 10 mm in height and 37 mm in width, the standard size for Italian decorative ribbons.

Q: What do the colors mean?

A: The black base symbolizes rigor and professional seriousness; the light-blue central band denotes electronic engineering, technology, and innovation.

Q: Which finish should I choose: flat or Elite?

A: Choose the flat regular format for everyday wear and easy stacking; select the slightly domed Elite finish for a more refined, three-dimensional look on formal uniforms or displays.

Q: What attachment options are available?

A: You can select a rear clamp for quick fastening or a single-screw rear fitting for a more secure, permanent attachment.

Q: Can I display multiple ribbons together?

A: Yes. Use a metal multi-ribbon mount to arrange several ribbons in one or more rows, keeping them aligned and compliant with regulations.

Q: Where can I buy the Nastrino Ingegnere Ind. Elettronico COM?

A: The ribbon is sold through Tutto Militare’s e-commerce store, where you can select finish and attachment options from the product choices.

Tip: When ordering, pick the finish and rear attachment that match your uniform and display needs; consider a multi-ribbon metal mount if you collect several decorations for a neat, regulation-aligned presentation.
