Product short description:

The Nastrino Ingegneri Ind. Materiali del Genio is a distinctive ribbon badge that honors excellence and innovation in materials engineering. Ideal for engineers and personnel who want a refined emblem to wear on uniforms or formal attire.

- **Material:** Made from high-quality materials for a neat, durable finish.
- **Use:** Intended to be worn on uniforms, dress uniforms or formal clothing.
- **Design:** Elegant, refined styling that adds a touch of prestige and clear recognition.
- **Meaning:** A symbol of professional dedication and competence in the materials engineering corps.

Product description:

Product overview

The nastrino Ingegneri Ind. Materiali del Genio is a service ribbon designed for members of the Engineers Industrial Materials branch, uniform suppliers, collectors and military surplus stores. It suits dress uniforms, display racks and tactical memorabilia collections for military, duty and police use.

Definition: a 10 mm high by 37 mm wide ribbon with a black background and a 2 mm horizontal

purple stripe, made for mounting on standard ribbon bars.

Main features

Key features and practical benefits at a glance.

- **Exact size:** 10 mm height × 37 mm width for clear visibility without bulk.
- **Distinctive design:** black base with a 2 mm horizontal purple stripe for a clean, recognizable look.
- **Packaging variants:** available flat (regular) or slightly domed (Elite).
- **Attachment options:** rear mount with clamps or with screws—selectable in the product dropdown.
- **Multi-ribbon compatibility:** can be fitted on two- or multi-position ribbon bars on a single metal base.
- **Quality construction:** produced with durable materials to maintain appearance over time.

How to use / When it’s useful

Use the ribbon on service dress or display racks; choose the rear attachment type based on the mounting method you prefer. For uniform wear, match placement and spacing to your unit’s regulations or standard display practice.

When ordering, select flat or Elite finish and the rear attachment (clamps or screws) from the dropdown. Multi-ribbon mounting is useful when you need to group several ribbons on a single metal base.

Quick answer: Wear on dress uniforms or add to a ribbon rack for display.

In most cases: choose flat for standard use; the Elite domed finish is a slightly more refined option for presentation or display racks.

Care and notes

Simple care keeps the ribbon presentable and ensures correct mounting.

- Store dry and avoid strong solvents or abrasive cleaning to protect colours and materials.
- Confirm the desired attachment (clamps or screws) at purchase to match your ribbon bar or uniform backing.
- Check spacing when fitting multiple ribbons on a single metal base to ensure even alignment.
- Limited quantities: demand can be high, so verify availability before finalizing orders.

FAQ

Q: What are the ribbon dimensions?

A: The ribbon measures 10 mm in height and 37 mm in width, with a 2 mm horizontal purple stripe on a black background.

Q: What packaging and finish options are available?

A: It is available in a regular flat format and a slightly domed Elite variant. Choose the finish using the product options before checkout.

Q: How can I select the rear attachment?

A: Rear attachment options include clamps or screws. Select your preferred option from the dropdown menu on the product page.

Q: Can the ribbon be mounted on a multi-place ribbon bar?

A: Yes. The ribbon can be fitted on two- or multi-position ribbon holders on a single metal base to consolidate multiple ribbons.

Q: What materials are used?

A: The ribbon is made with quality materials designed for durability and consistent appearance; specific material details follow standard ribbon construction practices.

Q: Is this ribbon always in stock?

A: Availability is limited and demand can be high. If stock is low, consider selecting your variant and attachment promptly to avoid delays.

Tip: Before adding to cart, choose the correct finish and rear attachment for your ribbon bar, and consider browsing related ribbon holders and multi-ribbon bases to complete your display or uniform setup.
