Product short description:

Black Paracord Bracelet designed for adventure lovers and anyone seeking a practical, stylish accessory. Crafted from sturdy paracord, it provides durable everyday wear and a clean, minimalist look that suits both casual and outdoor outfits.

- **Material:** Strong paracord construction for reliable durability in daily use.
- **Use:** Functional accessory for outdoor activities and everyday wear, adding a subtle tactical touch.
- **Design:** Sleek, minimalist black finish that pairs easily with any outfit.
- **Benefit:** Lightweight and versatile—combines practicality and style for your daily adventures.

Product description:

Product overview

The Braccialetto Paracord Nero is a durable paracord bracelet designed for hikers, campers, tactical users and everyday carry. It combines a discreet black design with practical emergency functionality for outdoor, duty and police use.

Definition: a wearable 7-core paracord bracelet that can be unraveled into up to 2.5 metres of

emergency cordage. Comfortable at the wrist and easy to carry, it is a simple, practical addition to any military surplus or tactical kit.

Main features

Key specifications and benefits at a glance:

- **High-strength paracord:** built with a core containing seven nylon strands.
- **250 kg breaking capacity:** tested tensile capacity of 250 Kg from the internal strands.
- **Convertible to cordage:** can be unclipped and used as emergency rope up to 2.5 m long.
- **Wrist size:** overall bracelet length on the wrist is 23 cm and it is adjustable for most users.
- **Water-resistant materials:** suitable for use in wet conditions.
- **Color:** available in black for a low-profile, tactical look.

How to use / When it’s useful

Use the bracelet as a regular wrist accessory and unclip it if you need cordage for temporary fixes, securing gear, improvised repairs or basic survival tasks. It is lightweight and always on hand when packing minimal kit.

Quick answer: unclasp and unravel the paracord for up to 2.5 m of usable cord. In most cases, it serves for emergency ties, lashing, or replacing a broken shoelace—do not use it for certified climbing or professional load-bearing applications.

Care and notes

Simple care keeps the paracord functioning and looking good:

- Rinse with fresh water after heavy dirt or salt exposure and air dry fully.
- Avoid chemicals or solvents that can weaken the nylon fibers.
- Do not exceed the stated 250 Kg capacity; use as temporary cordage only.
- Keep out of reach of small children and supervise use if necessary.

FAQ

Q: Is the bracelet adjustable?

A: Yes. The bracelet can be adjusted to fit most wrists. The clasp design allows a snug fit for everyday wear.

Q: What is the total length when unraveled?

A: When fully unraveled, the paracord provides approximately 2.5 metres of usable cordage for emergency use or temporary repairs.

Q: Is the paracord water-resistant?

A: The bracelet is made from water-resistant materials suitable for wet conditions. Rinse and air dry after heavy exposure to salt or mud.

Q: What is the tensile strength of the cord?

A: The internal seven nylon strands provide a rated holding capacity of 250 Kg. This indicates tensile strength for temporary uses, not certified lifting.

Q: Are other colors available?

A: Currently the model is offered only in black. Check product options or related items for different colors or styles.

Q: Is this suitable for tactical or military use?

A: The bracelet is commonly used in tactical, duty and outdoor contexts as an emergency cordage solution. It is not a certified component for weapons, body armour or professional load-bearing equipment.

Tip: Choose the correct wrist size and consider browsing related tactical and military surplus items to complete your kit. This simple accessory pairs well with other duty and outdoor gear.
