How to use / When it’s useful

Quick answer: wear it on the uniform or mount it on a ribbon bar to show CFS qualification; choose the flat or Elite finish and the preferred mount type during ordering. In most cases, authorized personnel will select the mount (clamps or screws) that matches their uniform or display board.

Use the multi-place ribbon bar option when you need to display several ribbons together in a neat, professional row. For collectors or duty equipment managers, the Elite finish gives a slightly domed appearance while the regular finish keeps a traditional flat look.

Care and notes

Basic care keeps the ribbon looking correct and preserves the mounting hardware; handle the ribbon as a service item intended for authorized use.

- Secure mounts with the chosen clamp or screw method to prevent loss.
- Intended for personnel who hold the CFS coordinator qualification; do not use as an unofficial award.
- Limited stock is available; check availability before planning large orders.
