Product overview

The nastrino Soccorritore Alpino Corpo Forestale is the service ribbon issued to Corpo Forestale personnel who hold the officially recognized alpine rescuer qualification. It is intended for active duty use on uniforms and for formal ribbon displays.

Definition: This is the official ribbon (nastrino) worn by qualified alpine rescuers of the Corpo Forestale. Suitable for duty, tactical insignia sets, and military surplus collections.

Main features

Simple, regulation-sized ribbon with clear visual identification and durable construction.

- **Exact size:** 10 mm high × 37 mm wide on a white field with a double horizontal red stripe 2 mm wide.
- **Materials:** Made with durable, long-lasting materials for regular use.
- **Design:** Distinctive and easily recognizable as the Soccorritore Alpino ribbon for the Corpo Forestale.
- **Formats available:** Standard flat regulation finish or slightly domed Elite variant.
- **Mounting options:** Supplied with a portanastrino using clamps or screws, selectable in the product options.
- **Multiple-ribbon mounting:** Can be fitted to multi-ribbon bars on a single metal base (see portanastrini option).

How to use / When it’s useful

Quick answer: Wear it on the uniform or mount it on a ribbon bar using the chosen portanastrino attachment (clamps or screws). It identifies personnel certified as alpine rescuers in the Corpo Forestale.

In most cases, the ribbon is ordered by service members for official wear or by departments ordering multiple ribbons to mount on a metal ribbon bar. Select the flat or Elite variant and the preferred attachment when adding to cart.

Care and notes

Basic care keeps the ribbon presentable and functional for uniform display.

- Keep dry and avoid abrasive cleaning to preserve color and finish.
- Choose the correct attachment (clamps or screws) for your uniform or ribbon bar.
- Handle Elite (domed) finish with care to avoid deformation.
- Limited availability: stocks may be restricted—check the product options before ordering.

FAQ

Q: Who is eligible to wear the nastrino Soccorritore Alpino Corpo Forestale?

A: The ribbon is intended for Corpo Forestale personnel who have obtained the alpine rescuer qualification recognized by the Administration.

Q: What are the exact dimensions and colors of the ribbon?

A: The ribbon measures 10 mm high by 37 mm wide on a white field with a double horizontal red

stripe 2 mm wide.

Q: Which packaging and finish options are available?

A: You can choose the standard flat regulation finish or the slightly domed Elite variant. Mounting options include portanastrino with clamps or with screws.

Q: Can the ribbon be mounted together with other ribbons?

A: Yes. It can be fitted to multi-ribbon portanastrini designed to hold several ribbons on a single metal base. Select the multi-ribbon option when required.

Q: Is this an official service ribbon?

A: The nastrino represents the alpine rescuer qualification for Corpo Forestale personnel; the product reflects the recognized ribbon design for that qualification.

Q: How do I select the correct attachment for my uniform?

A: Choose clamps for quick attachment or screws for a more secure fit. Consider the uniform type and whether you will mount multiple ribbons on a metal base.

Tip: When ordering, confirm the finish (flat or Elite) and the mounting type (clamps or screws) to match your uniform or ribbon bar; browse related ribbon and portanastrini options to complete a professional display.
