How to use / When it’s useful

Quick answer: use this ribbon for display, uniform mounting during reenactment, or as part of a military surplus or historical collection. Choose the mounting and format that match your display or uniform needs.

In most cases: collectors order the 37 mm regulation size and select either the flat or Elite finish; reenactors and duty/tactical collectors often prefer the clamp or screw fittings for secure attachment. If you need a loose ribbon for a medal, select that option at purchase.

Care and notes

Handle the ribbon like other textile insignia: store dry, avoid prolonged sunlight, and choose the proper mount for secure display.

- Store flat or on a suitable ribbon bar to prevent creasing.
- Avoid exposure to moisture and direct sunlight to preserve color.
- Check and select the desired mounting option (clamp or screws) before ordering.
- Limited quantities may be available; supply can vary.
