How to use / When it’s useful

Quick answer: Fit the nastrino to a ribbon mount using the chosen clamp or screw attachment for display on a uniform bar, case or exhibit. In most cases, buyers select the 37 mm ribbon with the mount type that matches their display or uniform setup.

Use this ribbon for historical displays, reenactment uniforms, museum exhibits, ceremonial presentations and retail sale within military surplus or tactical gear assortments. Choose the Elite domed finish for a slightly more prominent appearance on display pieces.
