Product overview

The Nastrino Campagna d'Africa Italo Tedesca is a historic 37 mm campaign ribbon for collectors, military historians, reenactors, and uniform restorers. It reproduces the green-white-red-white-black ribbon associated with Italian and German units in the North African campaign of

1940–1943.

Definition: A 37 mm campaign ribbon linked to the North Africa operations (1940–1943), produced for display or collection. It is offered in standard flat and bombed (Elite) finishes and can be supplied loose or fitted to a ribbon bar.

Main features

Carefully made to standard width and available with several mounting and presentation options suitable for display, restoration, and collection use.

- **Historic design:** Green?white?red?white?black color pattern representing the nations involved in the campaign.
- **Standard size:** Manufactured in the regulation 37 mm width.
- **Finish options:** Available flat (regulation) or bombed Elite finish for a raised appearance.
- **Mounting choices:** Can be completed with a ribbon bar fitted with a clamp or screw attachment (selectable).
- **Loose ribbon option:** Available as a loose ribbon for custom projects or display.
- **Limited availability:** Produced in small quantities and often sought by collectors and military surplus buyers.

How to use / When it’s useful

Use this ribbon for uniform restoration, collector displays, museum exhibits, or historical reenactments where period-accurate insignia are required. It fits standard 37 mm ribbon bars and can be combined with other ribbons on multi-place mounts.

Quick answer: Ideal for collectors and restorers who need an accurate North Africa campaign ribbon. In most cases, choose the flat finish for a regulation look or the Elite bombed finish for a more prominent display; select clamp or screw attachments depending on the ribbon bar you will mount it to.

Care and notes

Handle and store the ribbon to preserve color and shape; choose mounting options that match your existing ribbon bars or display requirements.

- Avoid prolonged exposure to sunlight and moisture to prevent fading.
- When fitting to a ribbon bar, select clamp or screw attachments that match the bar style and thickness.
- For multi-place ribbon bars, ensure the ribbon width and finish match the other ribbons on the mount.

FAQ

Q: What size is the ribbon?

A: The ribbon is produced in the regulation 37 mm width, suitable for standard ribbon bars and mounts.

Q: Can I choose the attachment type for the ribbon bar?

A: Yes. You can select a ribbon bar with a clamp attachment or with screws from the options menu when ordering.

Q: Is it possible to buy the ribbon without a mounting bar?

A: Yes. The ribbon is available as a loose ribbon if you prefer to use it for custom mounts or restoration projects.

Q: Which packaging finishes are offered?

A: Two finishing styles are available: the flat regulation format and the bombed Elite variant, which gives a slightly raised appearance for display.

Q: Can this ribbon be mounted on multi-place ribbon bars?

A: Yes. It can be mounted on two?place or multi?place ribbon bars; choose the attachment type that fits the metal base of your ribbon bar.

Q: Is this ribbon commonly available?

A: Availability is limited and demand is high among collectors. If stock is low, consider ordering sooner rather than later.

Tip: When ordering, confirm the 37 mm size and select the finish (flat or Elite) and attachment (clamp or screws) that match your ribbon bar. Browse related ribbons and mounts to complete a period-accurate display without delay.
