How to use / When it’s useful

Quick answer: use the clamp or screw-mounted portanastrino to attach the ribbon to a uniform ribbon bar or a display mount. For collectors, it works well as an individual exhibit piece or combined with other period ribbons on a metal base.

In most cases, choose the flat format for a classic look or the slightly domed Elite version for a refined appearance. Use a two- or multi-place portanastrini when you want several ribbons shown together in an ordered, professional layout.

Care and notes

Handle and store the ribbon like other historical textiles and metal-mounted insignia to preserve color and shape.

- Keep dry and store away from direct sunlight to avoid fading.
- Avoid rough cleaning; clean mounts gently with a soft cloth.
- Select clamp or screw mounting based on how the ribbon will be displayed or worn.
- Note: this item relates to a historical Fascist-era corps; it is a historical object and should be treated as such.
