How to use / When it’s useful

Quick answer: wear on appropriate ceremonial or dress uniforms where historically accurate ribbons are required, or mount in a collector display. The ribbon is mainly intended for display and dress uniform use rather than heavy field wear.

In most cases, choose the flat regulation form for strict uniform conformity or the Elite domed version for a subtle, raised look on display. Select clamp or screw attachments depending on your ribbon bar and mounting preference.

Care and notes

Basic care keeps the ribbon presentable for display or occasional use; follow uniform rules before wearing on active-duty garments.

- Store flat or on a metal ribbon bar to avoid creasing.
- Clean gently with a soft brush; avoid harsh chemicals or soaking.
- Choose clamp or screw attachment based on your uniform’s ribbon bar; screws are more permanent.
- Check unit or service regulations before wearing on official duty uniforms.
