Product short description:

The Trucco Stick Camouflage Camo Cream Two Tone is a dual-shade camouflage stick designed for quick, on-the-go touch-ups and everyday use. The two-tone format blends for a natural, customizable finish while helping to conceal blemishes and uneven skin tone.

- **Product:** Dual-shade cream stick named Camo Cream Two Tone for targeted concealing and blending.
- **Coverage:** Buildable, medium coverage to even skin tone and reduce visible discoloration.
- **Formula:** Smooth, creamy texture that spreads evenly and does not appear heavy on the skin.
- **Portability:** Compact design for easy storage and fast retouches while travelling or in the field.
- **Skin types:** Suitable for most skin types; perform a patch test if you have sensitive skin.

Product description:

Product overview

The NATO 60 g camo face stick is a compact tactical face paint designed for soldiers, police and survival users who need reliable camouflage and protection in the field. It is a 60-gram solid stick containing two complementary colors for on-the-spot face and equipment masking.

Definition: a dual-color camouflage stick formulated for field use to help blend skin and exposed gear with surrounding terrain. Ideal for tactical, military surplus and duty/police applications where concealment and comfort matter.

Main features

Reliable, compact and field-ready, this camo stick is built for extended use and varied environments.

- **Weight:** 60 grams per stick, easy to carry in pockets or packs.
- **Color pairs:** Brown/Green, Black/Green and Khaki/Brown for different terrains.
- **Format:** Twist-up solid stick for direct, fast application.
- **Durability:** Formulated to resist sweat and light rain for prolonged wear.
- **Infrared performance:** Helps reduce infrared/thermal detectability compared with bare skin.
- **Insect protection:** Contains properties that help repel insects in hostile environments.
- **Skin safety:** Formulated to be non-toxic and hypoallergenic for extended use on most skin types.

How to use / When it’s useful

Quick answer: apply directly to clean, dry skin—use darker tones on protruding areas (forehead, nose, chin) and lighter/green tones in recesses (cheeks, eye contour) to break facial outlines. In most cases, a few strokes with the stick are enough to achieve effective disruption of visible contours.

Use the stick for night operations, field training, survival scenarios and patrols in wooded, desert or urban terrain. It’s also practical for tactical drills and police duty when quick, durable camouflage and minor insect protection are needed.

Care and notes

Keep the stick clean and closed when not in use and remove paint after operations to prevent skin irritation.

- Remove with soap and water or cleansing wipes after use.
- Store in a cool, dry place away from extreme heat to preserve consistency.
- Avoid direct contact with eyes; rinse immediately if contact occurs.
- If you have very sensitive skin, test a small area first and discontinue if irritation appears.

FAQ

Q: How long does the camouflage effect last?

A: The formula is designed for extended wear and holds up well under sweating and light rain. Reapply as needed for very long missions or heavy precipitation.

Q: Is the stick safe for all skin types?

A: The product is formulated to be non-toxic and hypoallergenic and is suitable for most skin types. Patch-test if you have a history of sensitive skin.

Q: Can I use it in tropical environments?

A: Yes. In addition to camouflage, the stick offers insect-repellent properties that are useful in tropical and insect-prone areas.

Q: Is it waterproof?

A: It resists sweat and light rain but is not a substitute for fully waterproof products. Heavy water exposure may reduce longevity and require reapplication.

Q: What colors are available?

A: Available color combinations are Brown/Green, Black/Green and Khaki/Brown to suit different terrains and operational needs.

Q: Where can I buy the NATO camo face stick?

A: The product is sold through our military surplus retailer, Tuttomilitare, where you can choose variants and ordering options for shipping.

Tip: Choose the color pair that best matches your usual terrain and carry a spare stick in your kit; check related tactical and survival items to build a complete field loadout.

Product attributes:

Stick Camo: Verde/Nero, Verde/Marrone, Marrone/Kaki
