Product short description:

The Gilet Tattico Nero in Cordura (Black Cordura Tactical Vest) is a rugged, multi-pocket vest for outdoor use, tactical sports and emergency response. Suited to professionals and enthusiasts who need organized, durable gear.

- **Material:** Cordura fabric for durable, abrasion-resistant wear.
- **Modularity:** Multiple pockets and modular attachment points for pouches and tools.
- **Use:** Designed for outdoor activities, tactical training and emergency situations.
- **Fit:** Ergonomic cut for comfort and freedom of movement; low-profile black finish.

Product description:

Product overview

The Black Cordura Tactical Vest is a durable, adjustable vest designed for tactical sports, outdoor

activities, emergency response and duty use by security personnel, police, and military surplus enthusiasts. Definition: a 600 DENIER black Cordura and nylon tactical vest with adjustable straps and MOLLE-compatible attachment points.

Built for comfort and breathability, the vest balances durability with practical storage to carry magazines, a hydration bladder, and small tools. It is suitable for tactical, duty and outdoor applications where modularity and wear resistance matter.

Main features

Key features combine rugged materials with modular carrying options for a versatile tactical vest.

- **Durable construction:** nylon and 600 DENIER black Cordura for abrasion resistance and good water resistance.
- **Adjustable fit:** two Velcro shoulder straps, six side sliding straps and two D-rings for quick accessory anchoring.
- **Front loadout:** three magazine pouches on the right side and one on the left, plus a detachable Velcro holster.
- **Additional pockets:** compass pocket, two small ammo pockets on the upper left and a giberna-style pocket on the right.
- **Rear system:** operator drag handle and MOLLE attachment points on the back for extra gear.
- **Internal storage:** two front zip pockets and a rear pocket sized for a hydro-bag (hydration bladder).

How to use / When it’s useful

Use this vest for tactical training, field exercises, search and rescue or any outdoor activity that requires organized carry and quick access to equipment. Quick answer: it is best when you need modular storage, durability and an adjustable fit.

The vest works well layered over base layers or lightweight outerwear and adapts to different body shapes via shoulder and side adjustments. In most cases, detach removable pouches and adjust straps for comfort before prolonged use or while wearing body armor.

Care and notes

Basic care helps maintain material performance and prolong service life.

- Hand wash only to preserve Cordura and nylon fabric—avoid machine washing when possible.
- Remove detachable pouches and holster before cleaning; close Velcro to protect fasteners.
- Air dry in the shade; do not use high heat or bleach.
- Regularly check stitching and attachment points, especially MOLLE webbing and D-rings,

for wear.

FAQ

Q: Is the vest suitable for all sizes?

A: Yes. The vest is adjustable with Velcro shoulder straps and multiple side sliding straps to fit a wide range of body types.

Q: Can I wash the vest in a washing machine?

A: Hand washing is recommended to protect the material and fittings. If machine washing is necessary, use a gentle cycle and remove detachable accessories first.

Q: Is the Cordura material waterproof?

A: The 600 DENIER Cordura used provides good water resistance for wet weather, but the vest is not fully waterproof—expect some water penetration in heavy rain.

Q: Can I add more accessories?

A: Yes. The back MOLLE attachment system allows additional pouches and compatible accessories to be mounted for customized loadouts.

Q: Is this vest suitable for everyday wear?

A: The vest is designed primarily for tactical and outdoor use. It can be used for other activities that require durable, organized carry, but may be bulkier than typical casual wear.

Q: What pockets and pouches come with the vest?

A: It includes three magazine pouches on the right, one on the left with a detachable Velcro holster, a compass pocket, two small ammo pockets, a giberna pocket, two front zip pockets and an internal rear pocket for a hydro-bag.

Tip: Choose the correct size and adjust shoulder and side straps for a secure fit; consider removing or reconfiguring pouches based on your mission. Browse related tactical vests and compatible MOLLE accessories to complete your loadout.
